Re: Waste Licence Application in respect of AD Power (Roscommon) Ltd at Ballinphuill, Tibohine, Castlerea, Co. Roscommon, in accordance with Article 21(2) of the Waste Management (Licensing) Regulations, 2004 as amended.

Dear Mr Flynn

I am to refer to your incomplete application for a waste licence, Reg. No W0274-01 which was received by the Agency on 11th January 2010 and to a submission from Biocore Environmental AD1 Ltd on 16/04/2011 which contained a number of amended sections of the application and advising the Agency of a name change from AD Power (Roscommon) Ltd to Biocore Environmental AD1 Ltd.

As you are aware, the Agency assessed your waste licence application for compliance with Article 12 and Article 13 of the relevant Waste Management (Licensing) Regulations, 2004 as amended.

The Agency is of the view, a view which has been expressed through a number of meetings/discussions with Biocore Environmental AD 1 Director Mr Peter Carey, as activity representative, that the existing application does not satisfy the Waste Management (Licensing) Regulations 2004, as amended. In particular it does not afford a satisfactory level of transparency to all concerned, including the public, around company ownership and interrelationships and additionally, it does not comply with the Waste Management (Licensing) Regulations 2004, as amended, in terms of the extent and quality of information submitted. The Agency considers these matters can only be adequately addressed through a new licence application.

The Agency is now of the opinion that the existing application has been abandoned.

I enclose a Notice in accordance with Article 21(2) of the Waste Management (Licensing) Regulations, 2004 as amended. If no submission is received within the period specified in the notice, the application will be regarded as having been withdrawn.

The Agency is empowered to regard the application as having been withdrawn even if a submission is made and/or documentation furnished. You should therefore treat this notice as one of primary importance.

Yours sincerely

Frank Clinton
Programme Manager
Environmental Licensing Programme
Office of Climate, Licensing & Resource Use
