Re: Waste Licence Application by Kiernan Sand and Gravel Ltd for the continued operation of a waste recovery facility on lands at Foxtown Townland, Summerhill, County Meath (National Grid Reference 285633E 253005N).

To whom it may concern:

In accordance with Article 9 (1) of the Waste Management (Licensing) Regulations 2004 (S.I. No. 395 of 2004), we wish to give written notice of the following application for a Waste License Application to the Environmental Protection Agency, on behalf of Kiernan Sand and Gravel Ltd of Foxtown Townland, Summerhill, Co. Meath. i.e.

APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR A WASTE LICENCE

Kiernan Sand and Gravel Ltd, Foxtown Townland, Summerhill, County Meath intends to apply to the Environmental Protection Agency for a waste licence for the continued operation of a waste recovery facility on lands at Foxtown Townland, Summerhill, County Meath (National Grid Reference 285633E 253005N).

The nature of the development is the continued phased restoration of a sand and gravel pit using imported inert soils, stone, and recovery of inert construction and demolition waste. Up to circa 40,000 cubic metres per annum of inert materials is being accepted to site.

The principal activity is Class R5 (recycling/reclamation of other inorganic materials, which includes soil cleaning resulting in recovery of the soil and recycling of inorganic construction materials) of the Fourth Schedule of the Waste Management Act 1996, as amended. Other activities include Class R13 of the Fourth Schedule (storage of waste pending any of the operations numbered R 1 to R 12).

The waste licence application (W0262-01) was submitted on 13/02/2009. In accordance with Section 40 (2A)(C) of the Waste Management Acts (1996-2013), the Agency has assessed the information submitted and considers that the application must be made subject to an environmental impact assessment (EIA).

An environmental impact statement will be submitted to the Agency with the application.

A copy of the application for a waste licence, environmental impact statement and such further information relating to the application as may be furnished to the Agency in the course of the Agency's consideration of the application, will, as soon as practicable after receipt by the Agency, be available for inspection or purchase at the headquarters of the Agency.

Yours Sincerely,

For J Sheils Planning & Environmental Ltd,

John Sheils MSCSI MRICS
