**AA Screening Determination:**

That the activity is not directly connected with or necessary to the management of the site as a European Site and that it can be excluded on the basis of objective scientific information, that the activity, individually or in combination with other plans or projects, will have a significant effect on a European site, and accordingly the Agency determined that an Appropriate Assessment of the activity was not required.

It has been determined that the Installation does not have the potential for significant effects on any European site due to the nature and scale of waste operations and the distance between the Installation and the designated sites.
