In this context, particular attention was paid to the European Site(s) listed below.

AA Screening Determination:

That the **activity** is not directly connected with or necessary to the management of the site as a European site and that it can be excluded, on the basis of objective information, that the **activity**, individually or in combination with other plans or projects will have a significant effect on a European site, and accordingly the Agency determined that an Appropriate Assessment of the **activity** was not required.

It has been determined that this facility does not have the potential for significant effects on any European site due to the nature and scale of the WtE plant operations and the distance between the installation and the designated sites.
