Good morning Anna,

Sorry you are absolutely correct that was my fault, you are classified as IPC.
If you have any further queries please do not hesitate to contact me.

Kind regards,

Grainne

Hello Grainne,

I received your letter of 21.11. 2014, requesting consent to extend date to proposed determination of our Licence Review Application. We are in agreement here and consent to extend the date until April 5th 2015.

Can I clarify just one point, the request is made in accordance with the EPA (Industrial Emissions) (Licensing) Regulations 2013.

We received a response from Licensing in March 2014 that we have been reclassified to IPC and we have submitted our licence Review Application under the EPA (Integrated Pollution Control) (Licencing) Regulation 2013.

Can you let me know if this is still ok

Thanks
Anna
