Dear Mr Byrne,

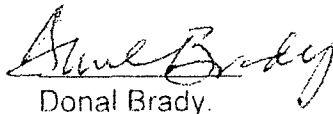

I refer to your letter of 10 March 2015 in relation to Review of licence 408 and I thank you for it.

I confirm that I am preparing for submission to the Agency a full and substantive response to the requests for information contained in the Agency's Notice letter of 18<sup>th</sup> December 2015. A bit more time is needed to complete it and I do hope that the issues that have been between us for so long will be resolved very soon.

I have no significant difficulty responding to any of the information requests and there will be no non-co-operation in relation to the processing of a replacement licence. I have no intention to either refuse or fail to respond to all requests.

I request that I be given some more time to submit my response to the requests of 18<sup>th</sup> December 2015.

Yours sincerely

  
Donal Brady.
