

Re: Notice in accordance with Regulation 18(3)(b) of the Waste Water Discharge (Authorisation) Regulations 2007, as amended.

30/03/2015

Dear Mr. Ken Conroy,

I refer to your application for a waste water discharge licence relating to agglomeration named Ballyvourney / Ballymakeery, Reg. No. D0299-01.

Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with Regulation 16 of the Waste Water Discharge (Authorisation) Regulations 2007, as amended.

You are therefore required, in accordance with Regulation 18(3)(b) of the Regulations, to take steps to supply the information detailed below:

REGULATION 16 COMPLIANCE REQUIREMENTS

1. Provide a revised drawing clearly detailing the boundary of the agglomeration to which this application relates. Please note that the agglomeration boundary shall include all areas serviced by the sewer network and shall include the waste water treatment plant. All areas of the agglomeration shall be within the agglomeration boundary.
2. Provide details of the programme of improvements for the agglomeration. The details should include a timeframe for completion of the improvement works.
 - Provide details of the proposed new WWTP, to include the type of treatment proposed, the standards to which the new WWTP will treat the effluent and the population equivalent for which the WWTP will cater.
 - Confirm if the primary discharge point will be relocated. Provide the grid reference for the proposed new discharge point, the new primary discharge monitoring point, and the receiving water for the new discharge point. Revise tables B.3 and D1(i)(a) of the application as necessary.

Your reply to this notice should include a revised non-technical summary which reflects the information you supply in compliance with the notice, insofar as that information impinges on the non-technical summary.

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Please supply the information by *30/04/2015*. Please note that all maps/drawings should not exceed A3 in size.

Please direct any queries that you may have in relation to the above to the Inspector **Máire Buckley** at 021-4875540 or to OCLR Admin Team **D**.

Yours sincerely,

Máire Buckley
