Facility Information Sum	mary		
AER Reporting Year	2014		
icence Register Number	W0267-01	•	
lame of site		Hi-Volt Ireland Ltd	
iite Location	Bally	duff, Thurles, Co. Tipperary	
NACE Code		3812	
Class/Classes of Activity		4.13	
National Grid Reference (6E, 6 N)			
he site for the reporting year. This should include information such as production increases or decreases on site, any infrastructural changes, environmental performance which was measured during the reporting year and an overview of compliance with your licence listing all exceedances of licence limits (where			
applicable) and what they relate to e.g. air, water, noise.			

Acceptance and transfer of scap metal, scrap batteries and waste oil only.

Declaration:

All the data and information presented in this report has been checked and certified as being accurate. The quality of the information is assured to meet licence requirements.

Groundwater/Soil monitoring template Lic No: W0267-01 Year 2014

Comments

Are you required to carry out groundwater monitoring as part of your licence requirements?	yes	Please provide an interpretation of groundwater monitoring data in the
2 Are you required to carry out soil monitoring as part of your licence requirements?	no	interpretation box below or if you require additional space please
Do you extract groundwater for use on site? If yes please specify use in comment section	yes	include a groundwater/contaminated land monitoring results interpretaion as an additional section in this AER
Do monitoring results show that groundwater generic assessment criteria such as GTVs or IGVs are exceeded or is there 4 an upward trend in results for a substance? If yes, please complete the Groundwater Monitoring Guideline Template Report (link in cell G8) and submit separately through ALDER as a licensee return AND answer questions 5-12 below. CGroundwater monitoring licensee return AND answer questions 5-12 below.	no	
5 Is the contamination related to operations at the facility (either current and/or historic)	SELECT	
6 Have actions been taken to address contamination issues?If yes please summarise remediation strategies proposed/undertaken for the site	SELECT	
7 Please specify the proposed time frame for the remediation strategy	SELECT	
8 Is there a licence condition to carry out/update ELRA for the site?	SELECT	
9 Has any type of risk assesment been carried out for the site?	SELECT	
10 Has a Conceptual Site Model been developed for the site?	SELECT	
11 Have potential receptors been identified on and off site?	SELECT	
12 Is there evidence that contamination is migrating offsite?	SELECT	Groundwater analysis is in line with those of previous years.

Additional Data	Requested fr	rom Landfill operators
-----------------	--------------	------------------------

For the purposes of the National Inventory on Greenhouse Gases, landfill operators are requested to provide summary data on landfill gas (Methane) flared or utilised on their facilities to accompany the figures for total methane generated. Operators should only report their Net methane (CH4) emission to the environment under T(total) KGlyr for Section & Sector specific PRTR pollutants above. Please complete the table below:

Landfill: Please enter summary data on the

Landfill:	Hi-Volt Ireland Limited				_	
Please enter summary data on the quantities of methane flared and / or utilised			Meth	nod Used		
	T (Total) kg/Year	M/C/E	Method Code	Designation or Description	Facility Total Capacity m3 per hour	
Total estimated methane generation (as per						
site model)	0.0				N/A	
Methane flared	0.0					(Total Flaring Capacity)
Methane utilised in engine/s	0.0				0.0	(Total Utilising Capacity)
Net methane emission (as reported in Section						
A above)	0.0				N/A
