Re: *Interim status report on the Assessment of Emissions to Air at ENVA Ireland Limited, Portlaoise (EPA licence Reg. No. W0184-01)*

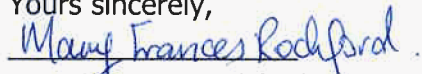

Dear Mr. Kelly,

I refer to a Seanad debate during July 2014 and to a commitment made by the then Minister for Environment, Community and Local Government, Deputy Phil Hogan. The Minister requested the Environmental Protection Agency (EPA) to continue its investigation into concerns about emissions to air from four oil reprocessing tanks at ENVA Ireland Ltd, Portlaoise and to provide him with a report.

A copy of our interim status report is attached and will be made available to the public in the coming days.

The report will be updated and finalised accordingly.

Yours sincerely,

Mary Frances Rochford

Manager Environmental Enforcement Kilkenny
