A Chara,

I refer to correspondence issued on 17/04/2013 in relation to the above. The following addresses the query which was raised.

Question *Provide the grid reference (easting and northing) of the monitoring point for the primary discharge from the WWTP.*

Response The monitoring point for the primary discharge is contained within the confines of the WWTP site and is located immediately downstream of the flow measurement flume at E 185352, N 098979.
