8 June 2015

Reg. No: W0287-01

Dear Mr. Murphy,

I refer to your application for a licence.

I am to advise in accordance with Regulation 10(2)(b)(ii) of the EPA (Industrial Emissions) (Licensing) Regulations 2013, that the following information is required in support of the application under Regulation 9 of the Regulations:

1. Please provide the following:

- i. Copies of the grant of permissions and associated planning reports for Planning File Reference Numbers: PD11/392 and PD04/1831 (An Bord Pleanála Ref. No. PL24.215781) and any other planning permissions granted since the commencement of waste activities at the installation.
- ii. State whether environmental impact statements (EISs) were submitted with the above referenced planning applications. Where EIS was not required, provide a written confirmation from the Planning Authority that an EIA was not required, in relation to each planning application, by or under the Act of 2000.
- iii. Provide details on any current planning application and include a copy of the associated EIS.

[Regulation 9(2)(e)]

2. Referring to Drawings No. 01 and No. 10P536_02, provide a description of the purpose of and use for all buildings and storage tanks/areas shown on the drawings. Provide a schematic flow diagram of all existing and proposed processes, including an illustration of where each process or part of a process will take place at the installation. [Regulation 9(2)(g)]
3. It is not clear from the groundwater monitoring results contained in "Baseline Assessment Report" whether the relevant hazardous substances identified in this report (i.e. diesel fuel, engine hydraulic and lubricating oils and sulphuric acid) are absent in groundwater. Provide groundwater monitoring results for appropriate parameters or propose an alternative approach to demonstrate the presence/absence of these substances. Provide evidence that the soil quality indicator of 50 mg/kg for Total Extractable Hydrocarbons (C5-C45) is appropriate as a baseline value for unpolluted Irish soil and for the relevant hazardous substances relevant to the installation. [Regulation 9(2)(n)]

Note: Any *telephone enquiries* in relation to the above should be directed to Ewa Babiarczyk at the number above.

All *written communications and replies* should be directed to Dorota Richards, Office of Climate, Licensing, Resources & Research, EPA, PO Box 3000, Johnstown Castle Estate, County Wexford.

4. Provide a timeframe for completion of proposed works within the installation, including the upgrade of the existing biofilters. [Regulation 9(4)(d)]
5. Explain the reason for differences in the extent of land leased by Ormonde Organics Limited indicated on the map attached to the lease and Drawing No. 2 of the information dated 10 April 2015. [Regulation 9(4)(d)]
6. Provide a copy of the current Waste Facility Permit. [Regulation 9(4)(d)]
7. A screening for Appropriate Assessment was undertaken on 8 June 2015 and the Agency determined that an Appropriate Assessment of the proposed activity is required. You are thereby required to submit a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. No. 477 of 2011). You are furthermore advised to refer to the document 'Appropriate Assessment of Plans and Projects in Ireland – Guidance for Planning Authorities'; issued in 2009 by the Department of the Environment, Heritage and Local Government, and revised in 2010. This document is available at:

http://www.npws.ie/publications/archive/NPWS_2009_AA_Guidance.pdf

In addition to the above please also provide an updated non-technical summary to reflect the information provided in your reply.

The requested information should be submitted to the Agency within *eight weeks* of the date of this notice, in order to allow the Agency to process and determine your application.

In the circumstances, you should make immediate arrangements to have the required document(s) (1 signed original and 1 copy in hardcopy format, and 2 copies of all files in electronic searchable PDF format on CD-ROM) submitted to the Agency without delay. Your response to this request should be directed to Ms. Dorota Richards, Administration Officer, Office of Climate, Licensing, Resources & Research.

It should be noted that the eight-week period within which the Agency is to decide the proposed determination will commence on the day on which this notice has been complied with. If you have any further queries please contact Ms. Ewa Babiarczyk at the number above.

Yours sincerely,

Ewa Babiarczyk
Environmental Licensing Programme
Office of Climate, Licensing, Resources & Research

Note: Any *telephone enquiries* in relation to the above should be directed to Ewa Babiarczyk at the number above.
All *written communications and replies* should be directed to Dorota Richards, Office of Climate, Licensing, Resources & Research, EPA, PO Box 3000, Johnstown Castle Estate, County Wexford.
