

Appendix 1

Appropriate Assessment Screening Determination

In accordance with Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 and 2013, the Agency has undertaken Appropriate Assessment screening to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activity, individually or in combination with other plans or projects is likely to have a significant effect on a European Site(s). In this context, particular attention was paid to the European Site(s) listed below.

Consent Details:

Reg. No.	W0140-04
Applicant Name:	Nurendale Limited trading as Panda Waste Services Limited.
Type of Consent Sought:	Industrial Emissions Licence
Location of Installation:	Rathdrinagh, Beauparc, Navan, County Meath.
Licence Application Date:	Waste licence application: 24 th September 2009. Transition to an IE application: 23 rd October 2014
European Site(s) assessed:	River Boyne and River Blackwater SAC (Site code 002299).
	Boyne Coast and Estuary SAC (Site code: 001957)
	Boyne Estuary SPA (Site code: 004080)
Date of AA Screening Determination:	29 th October 2015

AA Screening Determination:

That the activity is not directly connected with or necessary to the management of the site as a European site and that it cannot be excluded, on the basis of objective information, that the activity, individually or in combination with other plans or projects will have a significant effect on a European site and accordingly determined that an Appropriate Assessment of the activity is required, and for this reason determined to require the applicant to submit a Natura Impact Statement.

The reasons for which the Agency determined that an Appropriate Assessment of the

activity is required are as follows:

- It is proposed to discharge storm water to the southern drain;
- A constructed wetland has been put in place to treat storm water prior to discharge; however, this has not yet been commissioned for use;
- The southern drain is linked to the Roughgrange River which in turn flows into the River Boyne. The River Boyne forms part of the River Boyne and River Blackwater SAC (Site code 002299).
