Subject: Ormonde Organics Portlaw W0287-01

Ewa,

I refer to our response to the Agency's Regulation 10(2)(b)(ii) of the EPA (Industrial Emissions)(Licensing) Regulations 2013 request, which was submitted to the Agency on the 24th September 2015. In the response we stated that the Natura Impact Statement would be submitted by the 23rd October. At the time we were waiting on the results of the analysis of samples collected by Ormonde Organics in the River Suir and from the surface water emission to the river. Upon receipt of the results we noted that the sampling locations on the surface water drains were not representative of the run-off, as they did not include the combined outflow from the collection sump to the discharge point. Ormonde Organics is arranging for the additional samples to be collected and analysed and I will let you know when the results are expected and a timeframe for the submission of the NIS.

Regards,

Jim O'Callaghan
