Co. Laois:

Re: Waste Collection Permit Application

A Chara,

I refer to the above application made under the Waste Management (Collection Permit) Regulations 2001.

I wish to confirm that your application has been deemed complete and has been put on public display today (14th January 2002). A copy of your application has also been submitted to the Environmental Protection Agency for their comments.

In accordance with Article 8(3)(b) and 9(1)(a) of the Regulations you are hereby requested to submit the following:

- (i) Details of Public & Employer's liability insurance. This council requires that your Public & Employer's liability policies should contain a specific indemnity in respect of Donegal County Council. The total limit of indemnity in each case should be €12.7m (Employer's) and €6.4m (Public).
- (ii) Further details of the disposal/recovery facilities being used. This should include the licence and permit details of each facility and written consent from each facility confirming that the facility will accept waste, including hazardous waste from your company.

Your request for a reduction in the application fee is being considered at present.

If you have any queries, please contact the undersigned at (074) 72255.

FOR A/COUNTY SECRETARY

This matter is being dealt with by Liam McCarron, Environment office, Tel (074) 72255.

Waste Management (Collection Permit) Regulations, 2001

WASTE COLLECTION PERMIT

Permit Register Reference Number WCP/LK/052/02b

Limerick County Council being a nominated authority under Section 34(1)(aa) of the Waste Management Act, 1996 as amended by the Waste Management (Amendment) Act, 2001, hereby grants a waste collection permit to:

Atlas Environmental Ireland Ltd. T/A Atlas Ireland, herein after called the permit holder

of Clonminam Industrial Estate, Portlaoise, Co. Laois

subject to the attached schedule of conditions.

The permit holder is authorised by this permit to collect specified waste type(s) in the following local authority areas:

- Limerick County Council
- Limerick City Council
- Clare County Council
- Kerry County Council

Signed on behalf of the said Councils

T. Tang
APPROVED OFFICER

Order No. ENV 241/2002

Date 27/9/02

The permit holder may appeal the conditions attached to this permit, in accordance with Section 34(9)(a) of the Waste Management Act, 1996, to the Judge of the Limerick District Court, being the District Court in which the principal office of Limerick County Council is situate, within one month of the date of this permit.

REASON FOR THE DECISION

Limerick County Council is satisfied, on the basis of the information available, that subject to compliance with the conditions of this permit the activity will not cause environmental pollution and the grant of this permit is in accordance with the aims of the Waste Management Plan for the Limerick/Clare/Kerry Region and the National Hazardous Waste Management Plan.

In reaching this decision, Limerick County Council has considered the application and supporting documentation received from the applicant, and all submissions received from other parties.

INTERPRETATION

in this permit, terms used are as defined in the Waste Management Act, 1996 and repeated here for convenience. In addition some new definitions have been added. In case of conflict between this permit and the act, the Waste Management Act, 1996 takes precedence.

Act	The Waste Management Act, 1996, as amended.
Activity	A waste collection activity for the purposes of Section 34(1)(a) of the Act.
Agency	The Environmental Protection Agency (EPA) established under Section 19 of the Environmental Protection Agency Act, 1992.
Annual Environmental Report (AER)	As defined in Condition 4.5 of this permit
Authorised Person	A person who is appointed in writing by the Minister, a local authority, the Agency or such other person as may be prescribed to be an authorised person for the purposes of the Waste Management Act.
Collection	The gathering, sorting or mixing of waste for the purpose of its being transported, and includes the transport of waste and the acceptance of control of waste.
Commercial Waste	Waste from premises used wholly or mainly for the purposes of a trade or business or for the purposes of sport, recreation, education or entertainment but does not include household, agricultural or industrial waste.

Compost	Bio degradable waste that has been biologically processed to render it stable and suitable for use as a nutrient and soil enhancer
Construction and Demolition Waste	All waste that arises from construction, renovation and demolition activities, including all wastes mentioned in Chapter 17 of the European Waste Catalogue.
Disposal	Includes any of the activities specified in the Third Schedule of the Waste Management Act.
Disposal Facility	Any site or premises used for the purpose of waste disposal.
End-of-Life Vehicles	A vehicle which is waste within the meaning of Article 1(a) of Directive 75/442/EEC on Waste
Environmental Protection Agency	As defined by the Environmental Protection Act, 1992
Emergency Response Procedure	As detailed in section 2.9
Environmental Pollution	The holding, transport, recovery or disposal of waste in a manner which would, to a significant extent, endanger human health or harm the environment, and in particular – (a) create a risk to waters, the atmosphere, land, soil, plants or animals, (b) create a nuisance through noise, odours or litter, or (c) adversely affect the countryside or places of special interest;
European Waste Catalogue	A list of wastes (including the Hazardous Waste List) established, pursuant to Council directive 75/442/EEC on Waste, by Commission Decision 94/3/EC and which has been replaced since 1 st January 2002 by Commission Decision 2000/532/EC (as amended by Commission Decisions 2001/118/EC and 2001/119/EC). Any waste marked with an asterisk(*) is considered as a hazardous waste.
Further Information	Information and particulars received pursuant to a notice under article 9(1) of the Waste Management (Collection Permit) Regulations, 2001 (S.I. No. 402 of 2001).
Green Waste	Vegetable waste from gardens and parks, tree cuttings, branches, grass, leaves (with the exception of street

sweepings), sawdust, wood chips and other wood waste not treated with heavy metals or organic compounds.

Hazardous Waste	As defined in Section 4(2)(a) of the Act.
Healthcare Waste (to include non-hazardous waste arisings)	Those wastes listed under section 18 of the European Waste Catalogue
Household Waste	Waste produced within the curtilage of a building or self-contained part of a building used for living accommodation.
Industrial Waste	Includes waste produced or arising from manufacturing or industrial activities or processes.
Local Authority	In the case of a county borough, the city council of the county borough, in the case of any other administrative county, the council of the county, and references to the functional area of a local authority shall be construed accordingly.
Maintain	Keep in a fit state, including such regular inspection, servicing and repair as may be necessary to adequately perform its function.
Mechanically Propelled Vehicle	A vehicle intended or adapted for propulsion by mechanical means.
Municipal Waste	Household waste as well as commercial and other waste which, because of its nature and composition, is similar to household waste.
Nominated Authority	Limerick County Council is the local authority nominated under paragraph (aa) of Section 34(1) of the Act for the purpose specified therein as amended by the Waste Management (Amendment) Act 2001 for the functional areas of Limerick County, Limerick City, Clare County and Kerry County.
Packaging	Any material, container or wrapping, used for or in connection with the containment, transport, handling, protection, promotion, marketing or sale of any product or substance.
Recovery	Any activity carried on for the purposes of reclaiming, recycling or re-using, in whole or in part, the waste and any activities related to such reclamation, recycling or re-use, including any of the activities specified in the Fourth Schedule of the Waste Management Act.

Recovery Facility	Any site or premises used for the purpose of waste recovery.
Relevant Local Authority	The Authority in whose functional area the activity is taking place
Skip	A container used for the storage or removal of builder's materials, rubble, waste, rubbish or other materials and which is designed to be transported by means of a mechanically propelled vehicle.
Source Separation	Taking steps in a systematic manner for the purpose of separating specified waste types from other waste materials and the holding of such waste so separated prior to its collection, recovery or disposal.
Transfer Facility	A facility which has an EPA (Environmental Protection Agency) licence for the transfer of waste
Treatment of Waste	Includes any thermal, physical, chemical or biological processes that change the characteristics of waste in order to reduce its volume or hazardous nature or facilitate its handling, disposal or recovery.
Waste	Any substance or object belonging to a category of waste specified in the First Schedule of the Waste Management Act or for the time being included in the European Waste Catalogue (EWC) which is discarded or otherwise dealt with as if it were waste.
Waste Collection Permit	A permit issued by a local authority in accordance with the Waste Management (Collection Permit) Regulations, 2001 (S.I. No. 402 of 2001).
Waste Licence	A licence issued by the Environmental Protection Agency for a waste facility in accordance with the Waste Management Act.
Waste Oils (to include liquid / contaminated sorbent)	Any mineral-based lubrication or industrial oils which have become waste, including used combustion engine oils, gearbox oils, mineral lubricating oils, oils for turbines and hydraulic oils.
Waste Permit	A permit issued by a local authority for a waste facility in accordance with the Waste Management Act.

CONDITIONS

1. SCOPE OF PERMIT.

1.1 The permit holder may collect the wastes specified in condition 1.2 in the local authority areas of Clare, Kerry and Limerick Counties and Limerick City.

1.2 The permit holder may collect the following waste types only, unless otherwise agreed in writing in advance with the nominated authority, subject to the general conditions of this permit and the conditions for specific waste types contained in the Appendix to this permit:

13 08 99* wastes not otherwise specified
16 01 07* oil filters
17 05 03* soil and stones containing dangerous substances

1.3 ~~The conditions of this permit are based upon the information provided by the applicant during the application process. The permit holder shall notify the nominated authority in writing of any changes in the information furnished within four weeks of any such change arising. The nominated authority shall determine if the change is material or not and if a review of the permit is required or not.~~

1.4 The nominated authority may at any time review, and subsequently amend the conditions of, or revoke this permit. The nominated authority shall review this permit at least once in each period of two years after the date on which the permit was granted or last reviewed, as the case may be.

1.5 This permit and any condition imposed therein shall not relieve the permit holder of his statutory obligations under any other enactment whatsoever.

1.6 This permit is non-transferable.

2. MANAGEMENT OF THE WASTE COLLECTION ACTIVITY.

2.1 The permit holder shall ensure that where waste collected under this permit is transferred to a facility for the purpose of a recovery or disposal activity in respect of which section 39(1) of the Waste Management Act, 1996 applies-

- (i) there is in force a waste licence or a waste permit in relation to the carrying on of the activity concerned at that facility, or
- (ii) an application for such licence or permit has been made to, and is under consideration by, the Agency or relevant local authority and the activity concerned may be lawfully carried on pending a decision in relation to the said application.

- 2.2 The permit holder shall transport waste to the licensed or permitted facilities outlined in the original application for the waste collection permit, as amended, and to no other facilities whatsoever, subject to condition 2.3 below.
- 2.3 If the permit holder proposes to use disposal or recovery facilities other than those permitted or licensed facilities indicated in the original application for the waste collection permit, as amended, the permit holder shall, a minimum of two weeks prior to use of these facilities, submit the following details in writing for the written agreement of the nominated authority:
- a) Origin of waste material.
 - b) Description of waste (including EWC code).
 - c) Location, ownership details, and contact number of the disposal facility.
 - d) Waste permit or license details of the disposal facility.
- 2.4 The permit holder shall carry or cause to be carried a copy of this permit at all times, on each vehicle used for the collection of waste.
- 2.5 The permit holder shall not export waste from the State unless such export is fully in compliance with the requirements of Council Regulations (EEC) No. 259/93 of 1 February, 1993 on the Supervision and Control of Shipments of Waste within, into and out of the European Community, and appropriate national provisions arising from the implementation of those regulations including SI No. 149 (1998).
- 2.6 The permit holder shall be familiar with the requirements placed on holders of household or commercial waste arising from any bye-laws made under section 35 of the Waste Management Act, 1996 by the local authorities in whose area the collection activity is being carried out, and shall keep a copy of all such bye-laws at the address of the principal place of business.
- 2.7 Where bye-laws referred to in condition 2.6 have been made by one or more of the relevant local authorities, the permit holder shall not collect waste from holders unless it has been presented in accordance with the requirements of the bye-laws in force in a particular local authority area. Any costs arising from the implementation of the provisions of such bye-laws shall be borne by the permit holder.
- 2.8 The permit holder shall identify all hazards associated with the waste being collected, and shall be familiar with best practice regarding its safe movement and handling and shall adopt all necessary, reasonable and practicable safety measures accordingly.
- 2.9 A documented Emergency Response Procedure, which shall address any emergency situation that may arise shall be maintained by the permit holder and be available for inspection. This procedure shall include for an emergency response unit, replacement vehicles, clean-up equipment, etc in order to minimise the effects of the emergency on the environment. The permit holder shall submit as part of the first Annual Environmental Report (AER as detailed in para. 4.5) the documented Emergency Response Procedure

- 2.10 The permit holder shall ensure that all operatives employed in the waste collection activity are familiar with the conditions of this permit.
- 2.11 Any spillage of waste, which occurs in the course of the collection operation, shall be cleaned up immediately by the permit holder.
- 2.12 The permit holder shall develop a docket system for recording waste collection (except in the case of bag or wheeled bin household waste collection). The individually numbered collection dockets shall contain as a minimum the following details:
- a) Date and time of waste collection;
 - b) Origin and quantity of the waste collected;
 - c) Shall be signed by the producer of the waste, or his representative;
 - d) Description of the waste collected (including EWC codes for commercial, industrial or hazardous waste);
 - e) Destination of the waste collected;
 - f) Shall be signed by the receiver of the waste;
 - g) The docket shall be available for inspection in the vehicle until control of the waste has been handed over to the operator of a permitted or licensed facility. After that time, the dockets shall be retained at the principal office of the waste collector for a period of three years.
- 2.13 The permit holder shall ensure that waste collected shall not give rise to any emissions, including odours, during transportation.
- 2.14 The permit holder shall make reference to his/her permit reference number in all advertising relating to the waste activity.

3. VEHICLES, SKIPS AND RECEPTACLES.

- 3.1 All vehicles and skips used by the permit holder for the collection and transportation of waste, shall be fit for purpose and maintained, for this use, in accordance with the manufacturers' recommendations.
- 3.2 All vehicles and skips used for transporting waste shall be washed down as required in an appropriate manner and at an appropriate facility such as not to result in environmental pollution if the vehicle is subject to gross soiling.
- 3.3 Each skip, tanker or container (except for wheeled bins for Household Waste) used for the collection of waste shall be marked on at least two sides with the following information in clearly legible indelible lettering at least 125 millimetres high:
- (a) Name of the permit holder;
 - (b) Telephone number of the permit holder;
 - (c) A unique identification number for the skip, tanker or container.
- 3.4 Wheeled bins for household waste shall be uniquely identified with the name, address and telephone number of the permit holder, the name and address of

the householder and a unique reference number. This can be via an A5 size sticker fixed to the bin or similar approved method.(in writing by the Nominated Authority)

- 3.5 Any non compliance of skip bye-laws or the relevant section of the Roads Act, 1993 will be considered a non-compliance of this permit.

4. NOTIFICATION AND RECORD KEEPING.

- 4.1 The permit holder shall notify the nominated authority in relation to any conviction for an offence prescribed under article 19 of the Waste Management (Collection Permit) Regulations, 2001 or any requirement of an order under the Waste Management Act, 1996 or any other Environmental Legislation, within fourteen days of such conviction or the imposition of such a requirement.
- 4.2 The permit holder shall notify the relevant local authority (i.e. the authority in whose functional area the incident occurs) immediately after the occurrence of any incident connected with the waste collection activity which caused or has the potential to cause environmental pollution or a threat to human health. The permit holder shall include as part of the notification the date and time of the incident, details of the incident, and steps taken to avoid a recurrence. A written record of the incident shall also be sent, within 7 days of its occurrence, to the nominated authority if different to the relevant local authority.
- 4.3 The permit holder shall maintain records at the address of the principal place of business of the quantity (tonnes or litres) of each consignment of waste collected, its origin and destination, and from this information shall maintain up-to-date monthly records of waste collected which shall include:
- a) The quantity of waste collected in each local authority area, categorised as household, commercial or industrial waste;
 - b) The quantity of waste delivered to each recovery facility used.
 - c) The quantity of waste delivered to each disposal facility used.
 - d) The quantity of waste delivered to each transfer facility used.
 - e) The quantity of waste directly exported for recovery and its destination.
 - f) The quantity of waste directly exported for disposal and its destination.
 - g) Details of any waste consignment rejected by any facility, and its eventual disposal route.
 - h) Details of commercial or industrial waste producers from whom waste was collected.
- 4.4 The records maintained by the permit holder in accordance with condition 4.3 shall be made available for inspection by an authorised person of any of the relevant local authorities at the address of the principal place of business of the permit holder during normal office hours.

4.5 The permit holder shall, not later than 28th February in each year furnish to the nominated authority summary information in relation to the waste collection activities of the permit holder in the preceding calendar year or part thereof. This information, known as the Annual Environmental Report (AER), shall be provided in an approved electronic format. The AER shall contain the following information by Local Authority Area:

- a) The reporting period;
- b) Quantity (tonnes or litres) and type (using the relevant EWC codes) of waste collected, disposed of, and recovered during the reporting period;
- c) The relevant local authority areas where the permit holder carried out waste collection;
- d) Details of any waste (quantity and type) rejected by any disposal or recovery facility, and the alternative disposal or recovery facility used;
- e) Name and address of commercial and industrial waste producers from whom waste was collected, as well as the quantities, composition and final destination of disposal or recovery;
- f) Number of domestic customers in each functional area in the case of domestic refuse collectors in each relevant local authority;
- g) Summary of all waste facilities used by the permit holder and the relevant license or permit number;
- h) Registration No and type of vehicles used by the permit holder;
- i) Summary of the number of skips, tanks or containers (excluding household wheeled bins in the case of Household waste collectors) including the volume of each;
- j) Summary of any changes in ownership, director(s), company name(s), partners, or principal place of business, having regard to the requirements of condition 1.6.
- k) Proposals for changes in collection systems (kerbside, pay-by-weight, etc), to be introduced to meet any specified recycling, recovery targets or new bye-laws
- l) Any incidents that have occurred and complaints received;
- m) Evidence of renewal of insurances and written confirmation from the insurance company that the permit holder has adequate and appropriate insurance;
- n) Summary of collection charges;
- o) Any other items specified by the nominated authority;
- p) Information on any offence (prescribed under article 19 of the Waste Management (Collection Permit) Regulations, 2001), or any requirement of an order under the Waste Management Act, 1996 or any other Environmental Legislation, the nature of the offence and any penalty or requirement imposed by the court;
- q) Information in relation to the terms of any requirement imposed on the applicant by order of a court under sections 57 or 58 of the Waste Management Act.

5. CHARGES AND FINANCIAL PROVISIONS

- 5.1 The permit holder shall pay to Kerry County Council, Clare County Council, Limerick County Council or Limerick City Council, as the case may be, the costs incurred by the relevant local authority in the ongoing monitoring of compliance with the conditions of the permit including the costs of inspections, investigations and analyses of waste samples. Costs payable shall be advised to the permit holder periodically on foot of notices in writing to the permit holder.
- 5.2 The permit holder shall effect and maintain an appropriate and adequate policy of insurance as respects vehicles used for the purposes of, and liabilities arising from, the waste collection activity, including employer's liability and public liability as relevant.
- 5.3 Within three (3) months of the date of issue of this permit, ~~the permit holder shall submit written confirmation to the nominated authority from his insurance company that the permit holder has adequate and appropriate insurances in order to carry on his waste collection activities in accordance with the terms and conditions of this permit.~~

For inspection purposes only.
Consent of copyright owner required for any other use.

APPENDIX

CONDITIONS FOR SPECIFIC WASTE TYPES.

A. INDUSTRIAL WASTE

1. The permit holder shall submit details by the 1st October, 2002, for the written agreement of the Nominated Authority, for the immediate implementation of a system for the separate collection of dry recyclables from all commercial and industrial facilities. Dry recyclables are to be segregated in accordance with the Waste Management (Packaging) Regulations 1997 and are to include all packaging waste such as cardboard, glass, aluminium/tin cans, steel drums, plastics, timber etc. Provisions for other dry recyclables, not defined as packaging, such as metals, precious metals, plastic components, newspapers, magazines, office paper etc. are also to be included in the details submitted.
2. The permit holder shall submit details by the 1st April, 2003, for the written agreement of the Nominated Authority, for the implementation by 20th October, 2003, of a system for the separate collection of organic waste and green waste from all commercial and industrial facilities e.g. canteens, hotels, restaurants etc. The system must also provide for municipal organic and green waste generated by hospitals, nursing homes etc. Details of the collection system proposed, recovery facilities to be used etc. should be included.
3. The permit holder shall notify the Nominated Authority in advance, being a period of not less than one (1) month, of any proposal to alter/extend the materials included in the plan submitted for separate collection of dry recyclables under 1 above.
4. Wastes arising from industry which are municipal in nature shall be dealt with under the appropriate waste categories as outlined in this Appendix.

B. COMMERCIAL WASTE

1. The permit holder shall submit details by the 1st October, 2002, for the written agreement of the Nominated Authority, for the immediate implementation of a system for the separate collection of dry recyclables from all commercial and industrial facilities. Dry recyclables are to be segregated in accordance with the Waste Management (Packaging) Regulations 1997 and are to include all packaging waste such as cardboard, glass, aluminium/tin cans, steel drums, plastics, timber etc. Provisions for other dry recyclables, not defined as packaging, such as metals, precious metals, plastic components, newspapers, magazines etc. are also to be included in the details submitted.

2. The permit holder shall submit details by the 1st April, 2003, for the written agreement of the Nominated Authority, for the implementation by 20th October, 2003, of a system for the separate collection of organic waste and green waste from all commercial and industrial facilities e.g. canteens, hotels, restaurants etc. The system must also provide for municipal organic and green waste generated by hospitals, nursing homes etc. Details of the collection system proposed, recovery facilities to be used etc. should be included.
3. The permit holder shall notify the Nominated Authority in advance, being a period of not less than one (1) month, of any proposal to alter/extend the materials included in the plan submitted for separate collection of dry recyclables under 1 above.
4. Wastes arising from industry which are municipal in nature shall be dealt with under the appropriate waste categories as outlined in this Appendix.

C. CONSTRUCTION AND DEMOLITION WASTE

1. The permit holder shall not collect soil containing contaminants, unless specifically permitted in accordance with condition 1.2.
2. All consignments of waste being transported by skips, lorries, trucks and tippers shall be adequately secured during transit to prevent spillage and nuisance.
3. All dry or dusty wastes shall be dampened down prior to transit.
4. All other practicable precautions shall be taken to prevent nuisance.
5. If the permit holder proposes to use disposal or recovery facilities other than those permitted or licensed facilities indicated in the original application for the waste collection permit, as amended, the permit holder shall, a minimum of two weeks prior to use of these facilities, submit the details required in accordance with condition 2.3.

D. HEALTHCARE WASTE

1. The permit holder shall comply with the relevant details of the ADR Regulations and Carriage of Dangerous Goods by Road Regulations, 2001 (S.I. No. 492 of 2001) as they apply to healthcare waste (e.g. waste segregation, emergency response, contact numbers, etc).
2. The permit holder shall not store healthcare waste at any location except in accordance with the requirements of a waste licence or permit, the ADR Regulations or the Carriage of Dangerous Goods by Road Regulations.
3. The permit holder shall assign a European Waste Catalogue (EWC) code and waste description to each consignment of healthcare waste collected in

accordance with the requirements of the Waste Management (Movement of Hazardous Waste) Regulations, 1998 (S.I. No. 147 of 1998) and the Waste Management (Transfrontier Shipment of Waste) Regulations, 1998 (S.I. No. 149 of 1998).

4. In addition to the normal labelling requirements under relevant legislation (e.g. ADR, Carriage of Dangerous Goods by Road Regulations etc.), all receptacles used for the collection of healthcare waste shall be clearly identified as containing healthcare waste.
5. The permit holder shall use designated vehicles for the collection of healthcare waste. The vehicles shall be sterilised prior to being used for the collection of any other waste types.

E. WASTE OILS

1. All loading, unloading and storage of waste oils shall take place within the designated areas of any facilities, which shall be adequately bunded to ensure that any spillages that occur are retained and returned for reprocessing.
2. Waste oils shall be collected, handled, transported and stored in a manner so as to minimise the risks of contamination to all environmental media or endangerment to the general public and their health.
3. All oily waters and soil collected with the waste oil shall be transferred with the waste oil to the licensed or permitted waste oil recovery facility.
4. The permit holder shall not collect waste oils contaminated by polychlorinated biphenyl (PCB) unless specifically permitted for PCB's
5. Where waste oil collected by the permit holder is of a hazardous nature as defined in the European Waste Catalogue (EWC), the permit holder shall adhere to the special conditions relating to collection of hazardous waste.

F. END-OF-LIFE VEHICLES

These conditions apply equally to permit holders who carry whole end-of-life vehicles (ELVs) or crush the ELVs prior to transport.

European Waste Catalogue Codes and Definitions.

- | | |
|------------|---|
| 16 01 04 * | End of Life vehicles (hazardous ELV) |
| 16 01 06 | End of Life vehicles, containing neither liquid nor other hazardous components (non hazardous ELV). |

1. Vehicles collecting multiple hazardous ELV's shall use leak proof containers. These containers shall be decontaminated regularly to prevent fugitive emissions.

2. Hazardous ELV's shall not be baled prior to collection.
3. All vehicles used for the collection and transportation of hazardous ELVs shall be of such design to prevent spillage of ELV fluids and in any event carry adequate stocks of spill kits (including oil absorbent materials, pillows and blankets) to deal with any spillage of ELV fluids that may occur during transport. Any spillage shall be dealt with as an emergency and all necessary measures taken to contain and clean up the spillage immediately to minimise impacts on the environment. Such an incident shall be notified to the relevant local authority immediately after the occurrence of the incident in accordance with the requirements of condition 4.2. The procedure for dealing with this situation shall be documented and included in the Emergency Response Procedure required in accordance with condition 2.9.
4. All vehicles used for the collection and transportation of hazardous ELVs shall carry an adequate number of fire extinguishers to deal with any fires that may occur during transport. A fire shall be dealt with as an emergency and all necessary measures taken to extinguish the fire immediately to minimise impacts on the environment. Such an incident shall be notified to the relevant local authority immediately after the occurrence of the incident in accordance with the requirements of condition 4.2. The procedure for dealing with this situation shall be documented and included in the Emergency Response Procedure required in accordance with condition 2.9.

G. **HAZARDOUS WASTE**

Reminder: Commission Regulation (EC) No. 2557/2001 amends Annex V of the Council Regulation (EEC) No. 259/93. This amendment to the regulation is required to maintain consistency between Article V and the latest version of the hazardous waste list included in Commission Decision 2000/532/EC, as amended. In that regard, parts of both white/brown goods may be termed hazardous while others could be deemed recyclable.

1. The permit holder shall comply with the relevant provisions of the ADR Regulations and Carriage of Dangerous Goods by Roads Regulations, 2001 (S.I. No. 492 of 2001), as they apply to hazardous waste (e.g. waste segregation, emergency response/contact numbers etc).
2. A European Waste Catalogue (EWC) code and waste description shall be assigned to each hazardous waste consignment collected, in accordance with the requirements of the Waste Management (Movement of Hazardous Waste) Regulations, 1998 (S.I. No. 147 of 1998).
3. The permit holder shall keep in the collection vehicle a list of hazardous wastes that may be accepted at specified licensed or permitted facilities. The Rejection Procedure detailed in the Hazardous Waste Collectors C1 Form provides for a rejected load to be returned to its point of origin. Details of this

Rejection Procedure shall be included in the Annual Environmental Report required in Condition 4.5.

4. In addition to the normal labelling requirements under relevant legislation (e.g. ADR, Carriage of Dangerous Goods by Road Regulations etc.), all receptacles used for the collection of hazardous waste shall be clearly identified as containing hazardous waste.
5. The permit holders shall maintain records of all hazardous waste movements and shall comply with the Waste Management (Movement of Hazardous waste) Regulations, 1998 (S.I. No. 147 of 1998), and with the Waste Management (Transfrontier Shipment of Waste) Regulations, 1998 (S.I. No. 149 of 1998).
6. If vehicles are to be used for the collection of any other waste types, they shall be decontaminated prior to use.
7. ~~Air vehicles~~ used for the collection and transport of hazardous material shall be clean, dry and residue-free prior to commencement of loading of any new consignment of Hazardous Waste.

H. HOUSEHOLD WASTE

1. By the dates prescribed in Table 1, the permit holder shall submit details for the written agreement of the nominated authority, for the implementation of a system for kerbside collection of dry recyclables from households within those urban areas listed in Table 1 where the permit holder offers a collection service. The details shall include collection system proposed, materials to be collected, recovery facilities to be used and a timescale to implement the system which shall not be later than that prescribed in Table 1. Dry recyclables are as defined in Table 1.
2. By the dates prescribed in Table 2, the permit holder shall submit details for the written agreement of the nominated authority, for the implementation of a system for "Pay as you use" from households within those urban areas listed in Table 2 where the permit holder offers a collection service. The details can either be a pay by weight or a pay by volume collection system and the timescale to implement the system which shall not be later than that prescribed in Table 2.
3. By the dates prescribed in Table 3, the permit holder shall submit details for the written agreement of the nominated authority, for the implementation of a system for kerbside collection of the household organic fraction (kitchen and garden wastes) from households within those urban areas listed in Table 3 where the permit holder offers a collection service. The details shall include collection system proposed, materials to be collected, recovery facilities to be used and a timescale to implement the system which shall not be later than that prescribed in Table 3.

4. The permit holder shall notify the nominated authority in advance, being a period of not less than one (1) month, of any proposal to alter the level of fees charged to householders for waste collection services provided.
5. The permit holder shall provide written notification to the Nominated Authority and the relevant local authority (if different), a minimum of one (1) month in advance, of the cessation of domestic refuse collection activities in any part or parts of the local authority areas covered by this permit.
6. The permit holder shall give adequate notice to customers of a change in the collection day. Adequate notice shall mean:
 - 1 Written notice to each customer at least one week in advance.
 - 2 Use of local media, radio and local papers at least one week in advance.
7. ~~The permit holder shall collect all waste presented for collection on the assigned collection day.~~
8. Wheeled bins or waste receptacles shall not be left on trafficked areas once emptied.
9. Household waste shall only be collected in water tight hinged lid receptacles. Dry recyclables may as an alternative be collected in clear bio-degradable plastic bags.
10. Mixed household waste shall not be collected in bags after 1st September, 2002.
