ENVIRONMENTAL and QUALITY POLICY for ATLAS IRELAND & CAPITAL OILS

This Policy applies to all members of Atlas and Capital and a current copy is issued to each employee

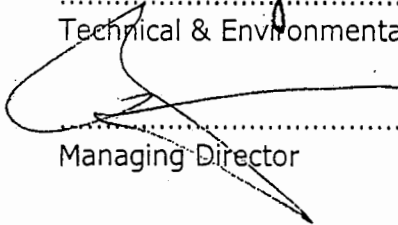

As market leaders in the provision of environmental products and services we recognise our responsibility for the protection of the environment and the provision of a safe working environment for our staff while delivering high quality services and products to our clients.

In particular we emphasise the following aspects in all operational sectors, including processing, distribution and supply of products or services:

- 1 We believe that every member of staff has a responsibility for the consistent high quality of the services we provide and the products we supply.
- 2 We are committed to comply with all regulatory authorisations and legislative requirements pertaining to our activities and we continually consult with regulatory bodies.
- 3 We will continuously promote and review environmental and health and safety awareness at all organisational levels. We will review our training needs regularly and ensure that all staff are adequately trained.
- 4 We give priority to safe working practices and best environmental practices and in this respect we provide our staff with all necessary equipment, including personal protective equipment.
- 5 Through implementation of our Environmental Management Programme we will seek to continuously improve our environmental performance while working to maintain a high product quality. As part of this, Atlas & Capital regularly set objectives and targets including the minimisation of resource consumption, environmental emissions and waste generation.
- 6 The environmental impacts of all new products, activities and operations will be considered before introduction or amendment.
- 7 It is our policy to openly communicate with our suppliers, clients and the general public, and on request, to provide these parties with information related to our environmental impacts.
- 8 Atlas & Capital will communicate this Environmental Policy to all our suppliers and customers, thereby encouraging these to work towards the environmental principles outlined therein.
