Ewa,

In reviewing the information submitted to the Agency in February 2016 I noticed that the emission point drawing in the Natura Impact Statement (Drawing No 12193-01 Rev A) was an older version and not the current drawing 1212913-02 Rev B, which was submitted in October 2013. For clarification Drawing No 12193-01 Rev B shows all of the existing and proposed emission points. My apologies for any confusion that may have been caused.

Regards,

Jim O'Callaghan
