Redaction of text from an inspector's report prior to its publication

The Directors considered documentation from the Environmental Licensing Programme concerning the redaction of text from an inspector's report for publication. Brian Meaney gave a verbal presentation outlining the data involved and the reasoning for considering the information to be deemed confidential. The Directors noted that the proposed redactions were of a commercial and financial nature. Following discussion the Directors approved the recommendation as detailed in the report and Memorandum dated 1 April 2016. The Directors noted that the Office of Environmental Enforcement would revert to the Board at a future Board meeting on the matter of public access and on the practice for releasing ELRA, CRAMP and FP data.
