Reg. No. P0408-02

Dear Mr. McGuire

In accordance with the provisions of Regulation 16 of the EPA (Industrial Emissions) (Licensing) Regulations 2013, you are being routinely notified that on the 18th December 2014, the Agency initiated a review of an existing Industrial Emission Licence, details of which are set out below,

- | | |
|--------------------------------------|--|
| - Name and address of applicant: | DDS BRADY FARMS LIMITED, Ballyglasson,
Mostrim, County Longford, |
| - Location of facility: | Carrickboy Farms, Ballyglasson, Edgeworthstown,
County Longford |
| - *Class and Nature of the Activity: | The rearing of pigs in installations where the capacity
exceeds 10,000 units on soils other than gley soils and
where the units have the following equivalents: 1 pig = 1
unit and 1 sow = 10 units |
| - Relevant Inspector: | Patrick Byrne |
| - Reference No: | P0408-02 |

A copy of the Agency's letter dated 18th December 2014 is attached for your information and all documentation in relation to this licence review is available to view on the Agency's website at <http://www.epa.ie/terminalfour/ippc/ippc-view.jsp?regno=P0408-02>.

Please note that there is no requirement for you to acknowledge receipt of this letter and if you have no comments to make in relation to this application, there is no requirement for you to reply to this letter.

Yours sincerely

Grainne Oglesby
Environmental Licensing Programme
Office of Environmental Sustainability

Co. Longford.

Date: 18/12/2014

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];*
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

Title of Document Intensive Rearing of Poultry and Pigs (July 2003)			
BAT reference Number	BAT Statement	Applicability to installation	Proposed/ in place
<i>e.g. BAT 1</i>	<i>e.g. BAT is to implement and adhere to an environmental management system (EMS) that incorporates all of the following features:.....</i>	<i>e.g. Applicable</i>	<i>e.g. Standardised EMS in place</i>

- Section 83(5) (xi) specifies that the Agency shall not grant a licence unless it is satisfied that the licensee is a fit and proper person. Section 84(4) specifies the information required to enable a determination to be made by the Agency.
 - Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
 - Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
 - Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Yours sincerely

Patrick Byrne, Senior Inspector,

Environmental Licensing Programme,

Office of Climate, Licencing Resources & Research

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In addition, it is crucial to review the records regularly to identify any discrepancies or errors. This proactive approach helps in catching mistakes early and prevents them from escalating into larger issues. Consistent auditing is a key component of effective financial management.

Furthermore, the document highlights the need for clear communication between all parties involved. Regular meetings and reports should be used to keep everyone informed about the current status and any changes that may affect the records. This collaborative effort is essential for maintaining the integrity of the data.

Finally, it is recommended to use standardized formats and procedures for all entries. This consistency makes it easier to compare and analyze the data over time. By following these guidelines, the organization can ensure that its records are reliable and useful for decision-making.

The second part of the document provides a detailed overview of the current financial performance. It includes a summary of the revenue generated, the expenses incurred, and the resulting profit or loss for the period. This section is supported by various charts and graphs that illustrate the trends and patterns in the data.

The revenue section shows a steady increase over the past few quarters, which is a positive sign for the business. However, the expense section indicates that there has been a significant rise in certain categories, which has led to a decrease in overall profitability. This analysis helps in identifying areas where costs can be reduced or revenue can be increased.

The conclusion of the document summarizes the key findings and provides recommendations for future actions. It suggests that the organization should focus on optimizing its operations to reduce unnecessary expenses and improve its financial health. Regular monitoring and reporting will continue to be a priority to ensure long-term success.

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports* (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

Reg. No. P0408-02

LoCall: 1890 33 55 99

Dear County Secretary

In accordance with the provisions of Regulation 16 of the EPA (Industrial Emissions) (Licensing) Regulations 2013, you are being routinely notified that on the 18th December 2014, the Agency initiated a review of an existing Industrial Emission Licence, details of which are set out below,

- | | |
|--------------------------------------|--|
| - Name and address of applicant: | DDS BRADY FARMS LIMITED, Ballyglasson,
Mostrim, County Longford, |
| - Location of facility: | Carrickboy Farms, Ballyglasson, Edgeworthstown,
County Longford |
| - *Class and Nature of the Activity: | The rearing of pigs in installations where the capacity
exceeds 10,000 units on soils other than gley soils and
where the units have the following equivalents: 1 pig = 1
unit and 1 sow = 10 units |
| - Relevant Inspector: | Patrick Byrne |
| - Reference No: | P0408-02 |

A copy of the Agency's letter dated 18th December 2014 is attached for your information and all documentation in relation to this licence review is available to view on the Agency's website at <http://www.epa.ie/terminalfour/ippc/ippc-view.jsp?regno=P0408-02>.

Please note that there is no requirement for you to acknowledge receipt of this letter and if you have no comments to make in relation to this application, there is no requirement for you to reply to this letter.

Yours sincerely

Grainne Oglesby
Environmental Licensing Programme
Office of Environmental Sustainability

Mr Donal Brady
Carrickboy Farms
Ballyglassin
Edgeworthstown
Co. Longford.

Date: 18/12/2014

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];*
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

Title of Document Intensive Rearing of Poultry and Pigs (July 2003)			
BAT reference Number	BAT Statement	Applicability to installation	Proposed/ in place
<i>e.g. BAT 1</i>	<i>e.g. BAT is to implement and adhere to an environmental management system (EMS) that incorporates all of the following features:</i>	<i>e.g. Applicable</i>	<i>e.g. Standardised EMS in place</i>

- Section 83(5) (xi) specifies that the Agency shall not grant a licence unless it is satisfied that the licensee is a fit and proper person. Section 84(4) specifies the information required to enable a determination to be made by the Agency.
 - Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
 - Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
 - Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Yours sincerely

Patrick Byrne, Senior Inspector,

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports* (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Date: 18/12/2014

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports* (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

Title of Document Intensive Rearing of Poultry and Pigs (July 2003)			
BAT reference Number	BAT Statement	Applicability to installation	Proposed/ in place
e.g. BAT 1	e.g. BAT is to implement and adhere to an environmental management system (EMS) that incorporates all of the following features:	e.g. Applicable	e.g. Standardised EMS in place

- Section 83(5) (xi) specifies that the Agency shall not grant a licence unless it is satisfied that the licensee is a fit and proper person. Section 84(4) specifies the information required to enable a determination to be made by the Agency.
 - Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
 - Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
 - Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Mr Donal Brady
Carrickboy Farms
Ballyglassin
Edgeworthstown
Co. Longford.

Date: 18/12/2014

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports* (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

Title of Document Intensive Rearing of Poultry and Pigs (July 2003)			
BAT reference Number	BAT Statement	Applicability to installation	Proposed/ in place
e.g. BAT 1	e.g. BAT is to implement and adhere to an environmental management system (EMS) that incorporates all of the following features:.....	e.g. Applicable	e.g. Standardised EMS in place

- Section 83(5) (xi) specifies that the Agency shall not grant a licence unless it is satisfied that the licensee is a fit and proper person. Section 84(4) specifies the information required to enable a determination to be made by the Agency.
- Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
- Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
- Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Yours sincerely

Reg. No. P0408-02

Dear Ms Byrne

In accordance with the provisions of Regulation 16 of the EPA (Industrial Emissions) (Licensing) Regulations 2013, you are being routinely notified that on the 18th December 2014, the Agency initiated a review of an existing Industrial Emission Licence, details of which are set out below,

- **Name and address of applicant:** DDS BRADY FARMS LIMITED, Ballyglasson, Mostrim, County Longford.
- **Location of facility:** Carrickboy Farms, Ballyglasson, Edgeworthstown, County Longford
- ***Class and Nature of the Activity:** The rearing of pigs in installations where the capacity exceeds 10,000 units on soils other than gley soils and where the units have the following equivalents: 1 pig = 1 unit and 1 sow = 10 units
- **Relevant Inspector:** Patrick Byrne
- **Reference No:** P0408-02

A copy of the Agency's letter dated 18th December 2014 is attached for your information and all documentation in relation to this licence review is available to view on the Agency's website at <http://www.epa.ie/terminalfour/ippc/ippc-view.jsp?regno=P0408-02>.

Please note that there is no requirement for you to acknowledge receipt of this letter and if you have no comments to make in relation to this application, there is no requirement for you to reply to this letter.

Yours sincerely

Edgeworthstown
Co. Longford.

Date: 18/12/2014

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];*
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

Title of Document Intensive Rearing of Poultry and Pigs (July 2003)			
BAT reference Number	BAT Statement	Applicability to installation	Proposed/ in place
e.g. BAT 1	e.g. BAT is to implement and adhere to an environmental management system (EMS) that incorporates all of the following features:....	e.g. Applicable	e.g. Standardised EMS in place

- Section 83(5) (xi) specifies that the Agency shall not grant a licence unless it is satisfied that the licensee is a fit and proper person. Section 84(4) specifies the information required to enable a determination to be made by the Agency.
 - Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
 - Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
 - Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Date: 18/12/2014

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];*
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

Title of Document <i>Intensive Rearing of Poultry and Pigs (July 2003)</i>			
BAT reference Number:	BAT Statement	Applicability to installation	Proposed/ in place
<i>e.g. BAT 1</i>	<i>e.g. BAT is to implement and adhere to an environmental management system (EMS) that incorporates all of the following features:.....</i>	<i>e.g. Applicable</i>	<i>e.g. Standardised EMS in place</i>

- Section 83(5) (xi) specifies that the Agency shall not grant a licence unless it is satisfied that the licensee is a fit and proper person. Section 84(4) specifies the information required to enable a determination to be made by the Agency.
 - Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
 - Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
 - Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Yours sincerely

Patrick Byrne, Senior Inspector,

Reg. No. P0408-02

Dear Sir/Madam

In accordance with the provisions of Regulation 16 of the EPA (Industrial Emissions) (Licensing) Regulations 2013, you are being routinely notified that on the 18th December 2014, the Agency initiated a review of an existing Industrial Emission Licence, details of which are set out below.

- Name and address of applicant: DDS BRADY FARMS LIMITED, Ballyglasson, Mostrim, County Longford,
- Location of facility: Carrickboy Farms, Ballyglasson, Edgeworthstown, County Longford
- *Class and Nature of the Activity: The rearing of pigs in installations where the capacity exceeds 10,000 units on soils other than gley soils and where the units have the following equivalents: 1 pig = 1 unit and 1 sow = 10 units
- Relevant Inspector: Patrick Byrne
- Reference No: P0408-02

A copy of the Agency's letter dated 18th December 2014 is attached for your information and all documentation in relation to this licence review is available to view on the Agency's website at <http://www.epa.ie/terminalfour/ippc/ippc-view.jsp?regno=P0408-02>.

Please note that there is no requirement for you to acknowledge receipt of this letter and if you have no comments to make in relation to this application, there is no requirement for you to reply to this letter.

Yours sincerely

Grainne Oglesby

Mr Donal Brady
Carrickboy Farms
Ballyglassin
Edgeworthstown
Co. Longford.

Date: 18/12/2014

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports* (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

Title of Document Intensive Rearing of Poultry and Pigs (July 2003)

<i>e.g. BAT 1</i>	<i>e.g. BAT is to implement and adhere to an environmental management system (EMS) that incorporates all of the following features:....</i>	<i>e.g. Applicable</i>	<i>e.g. Standardised EMS in place</i>

- Section 83(5) (xi) specifies that the Agency shall not grant a licence unless it is satisfied that the licensee is a fit and proper person. Section 84(4) specifies the information required to enable a determination to be made by the Agency.
 - Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
 - Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
 - Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports* (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions* [Regulation 9(2)(n)];
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

- Section 83(5) (xi) specifies that the Agency shall not grant a licence unless it is satisfied that the licensee is a fit and proper person. Section 84(4) specifies the information required to enable a determination to be made by the Agency.
 - Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
 - Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
 - Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Yours sincerely

Reg. No. P0408-02

Dear Mr Browne

In accordance with the provisions of Regulation 16 of the EPA (Industrial Emissions) (Licensing) Regulations 2013, you are being routinely notified that on the 18th December 2014, the Agency initiated a review of an existing Industrial Emission Licence, details of which are set out below,

- | | |
|--------------------------------------|---|
| - Name and address of applicant: | DDS BRADY FARMS LIMITED, Ballyglasson, Mostrim, County Longford. |
| - Location of facility: | Carrickboy Farms, Ballyglasson, Edgeworthstown, County Longford |
| - *Class and Nature of the Activity: | The rearing of pigs in installations where the capacity exceeds 10,000 units on soils other than gley soils and where the units have the following equivalents: 1 pig = 1 unit and 1 sow = 10 units |
| - Relevant Inspector: | Patrick Byrne |
| - Reference No: | P0408-02 |

A copy of the Agency's letter dated 18th December 2014 is attached for your information and all documentation in relation to this licence review is available to view on the Agency's website at <http://www.epa.ie/terminalfour/ippc/ippc-view.jsp?regno=P0408-02>.

Please note that there is no requirement for you to acknowledge receipt of this letter and if you have no comments to make in relation to this application, there is no requirement for you to reply to this letter.

Yours sincerely

Mr Donal Brady
Carrickboy Farms
Ballyglassin
Edgeworthstown
Co. Longford.

Date: 18/12/2014

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts; weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports* (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

Table 1 CONCLUSIONS ON BAT (One table for each relevant BAT reference document)

Title of Document Intensive Rearing of Poultry and Pigs (July 2003)			
BAT reference Number	BAT Statement	Applicability to installation	Proposed/ in place
e.g. BAT 1	e.g. BAT is to implement and adhere to an environmental management system (EMS) that incorporates all of the following features:	e.g. Applicable	e.g. Standardised EMS in place

- Section 83(5) (xi) specifies that the Agency shall not grant a licence unless it is satisfied that the licensee is a fit and proper person. Section 84(4) specifies the information required to enable a determination to be made by the Agency.
 - Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
 - Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
 - Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Yours sincerely

Patrick Byrne, Senior Inspector,

Environmental Licensing Programme,

Office of Climate, Licencing Resources & Research

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for the company's financial health and for providing reliable information to stakeholders.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps from identifying a transaction to entering it into the accounting system, ensuring that all necessary details are captured.

3. The third part of the document discusses the role of the accounting department in monitoring and controlling the company's financial performance. It highlights the importance of regular reviews and the use of financial ratios to assess the company's position.

4. The fourth part of the document addresses the challenges of financial management in a dynamic market environment. It suggests strategies for managing risk and ensuring the company's long-term sustainability.

5. The fifth part of the document concludes by summarizing the key points discussed and reiterating the importance of a strong financial foundation for the company's success.

6. The sixth part of the document provides a detailed analysis of the company's current financial performance, including a comparison with industry benchmarks and a discussion of the factors influencing the results.

7. The seventh part of the document offers recommendations for improving the company's financial performance, based on the findings of the analysis. It includes specific actions that can be taken to address the identified weaknesses and capitalize on the opportunities.

Reg. No. P0408-02

Notice for the purposes of Section 87(1) (b) of the EPA Acts 1992, as amended – Review by the Agency of an Industrial Emissions Licence

Dear Mr Brady,

I am to advise, in accordance with Section 87(1) (b) of the EPA Acts, that the Agency intends initiating a review of your existing Industrial Emissions Licence, Register Number: P0408-01, for an installation located at Carrickboy Farms, Ballyglassin, Edgeworthstown, Co. Longford.

The review is being initiated in accordance with the provisions of Section 90(4)(iv) of the EPA Acts in order to bring your licence into compliance with new legislation introduced since your existing licence was issued, including:

- Protection of the Environment Act 2003;
- Directive 96/61/EC on Integrated Pollution Prevention and Control;
- Directive 2010/75/EU on Industrial Emissions (Integrated Pollution Prevention and Control);
- Regulation 1069/2009 on Animal By-Products;
- European Communities (Industrial Emissions) Regulations 2013 (SI 138 of 2013); and
- European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014 (SI 31 of 2014).

In accordance with Section 90(7) of the EPA Acts, you are required, for the purposes of the review of your licence, to submit the following information:

- An updated non-technical summary of the activity and associated emissions;
- Identify any changes to the activity and emissions that have occurred since the existing licence was issued by the Agency on the 22nd October 1999, in particular provide details of the animal numbers housed at the installation (sows, including served gilts, weaners, production pigs);
- Provide an updated site boundary map (outlined in red), site layout plan showing buildings, emission points, monitoring points;
- Provide details of the management and control of organic fertiliser on-site;

- Provide a record of movement of organic fertiliser off-site for 2013 and 2014 which identifies the quantity, dates and details of importers (name and herd number);
- With regard to baseline reports, please provide a report on an assessment undertaken in accordance with Stages 1 to 3 of the *European Commission Guidance concerning baseline reports (available at <http://www.epa.ie/licensing/industrialemissionslicensing/>) under Article 2(2) of Directive 2010/75/EU on industrial emissions [Regulation 9(2)(n)];*
- Tabulate all of the BAT conclusions from the BREF document for Intensive Rearing of Poultry and Pigs (July 2003). For each BAT conclusion, indicate whether it is applicable to your installation. Where you consider a BAT conclusion to be inapplicable, provide a justification for this. Complete Table 1.

Similarly, please tabulate any relevant conclusions on BAT from the following BREF documents:

- Reference Document on Best Available Techniques for Energy Efficiency, February 2009
- Reference Document on Best Available Techniques on Emissions from Storage, July 2006

Any other relevant conclusions on BAT should also be tabulated. The following details should also be included in your tables [Regulation 9(2)(h)]:

For each BAT conclusion, state how the BAT requirement is being met, if it is proposed to be put in place and the timeline for implementation. Details of any proposals must be provided. Where you do not propose to meet the requirements of a particular BAT conclusion, provide reasons and a justification.

 - Indicate whether the licensee or other relevant person has been convicted under the EPA Act 1992, as amended, the Waste Management Act 1996, as amended, the Local Government (Water pollution) Acts 1977 and 1990 or the Air Pollution Act 1987.
 - Provide details of the licensee's technical knowledge and/or qualifications, along with that of other relevant employees.
 - Provide information to show that the person is likely to be in a position to meet any financial commitments or liabilities that may have been or will be entered into or incurred in carrying on the activity to which the application relates or in consequence of ceasing to carry out that activity or in consequence of ceasing that activity.
- Undertake a screening for Appropriate Assessment and state whether the activity, individually or in combination with other plans or projects, is likely to have a significant effect on a European Site(s), in view of best scientific knowledge and the conservation objectives of the

site(s). Where it cannot be excluded, on the basis of objective scientific information, following screening for Appropriate Assessment, that an activity, either individually or in combination with other plans or projects, will have a significant effect on a European Site, provide a Natura Impact Statement, as defined in Regulation 2(1) of the European Communities (Birds and Natural Habitats) Regulations (S.I. 477 of 2011). Where based on screening it is considered that an Appropriate Assessment is not required, provide a reasoned response.

Please submit one signed original, one hard copy and 2 copies on CD-ROM in electronic searchable PDF format within 8 weeks of the date of this letter, i.e., 12th February 2015, addressed to Environmental Licensing Programme, Office of Climate, Licensing Resources and Research, EPA, Headquarters, PO Box 3000, Johnstown Castle Estate, Co Wexford.

For the purposes of the review, the reference number in the Register of Licences is No. P0408-02.

On 18th December 2014, a newspaper notice will be published in the Irish Independent in accordance with Regulation 12(1) of the Environmental Protection Agency (Industrial Emissions) (Licensing) Regulations 2013, stating that the EPA is initiating a review of your licence.

SUBMISSIONS – THIS IS NOT OBLIGATORY.

In accordance with Regulation 12(3) of the EPA (Industrial Emissions) (Licensing) Regulations 2013 (S.I. 137 of 2013), you are entitled but not required to make a submission relating to the review within four weeks of the date of this notice, i.e., by 24th January 2015 (having disregarded the period between the 24th day of December and the 1st day of January, both days inclusive). As the offices of the Agency are closed on that day, in accordance Regulation 2(2) of the above referenced Regulations, the latest date for receipt of a submission is extended to 5.00 pm on 26th January 2015.

It should be noted that where you fail or refuse to comply with the above requirements of the Agency within the specified timeframe, the Agency may proceed to determine the review without the information requested and that this may have consequences for the Agency's ability to grant a reviewed licence.

Yours sincerely

Patrick Byrne, Senior Inspector,

Environmental Licensing Programme,

Office of Climate, Licencing Resources & Research
