

## Licence Alteration Request

Alteration Details	
Licence	W0058-01      Starrus Eco Holdings Limited (Sligo)
Licensee	Starrus Eco Holdings Limited
Title of Alteration	Drainage Works to Foul

### Screening Report

No.	Question	Answer
1	Does the proposed alteration require a new class of activity or process?	No
2	Does the proposed alteration cause a new / additional main emission point?	No
3	Does the proposed alteration increase or change specified emissions <b>significantly</b> ?	No
4	Does the proposed alteration increase <b>significantly</b> the overall total emission from the installation/facility?	No
5	Does the proposed alteration involve development or proposed development that has already been granted planning permission or requires a grant of planning permission and was/is subject to EIA by the Planning Authority or An Bord Pleanála?	No
6	Did the proposed alteration require the preparation of a Natura Impact Statement (NIS) for consideration by any Planning or Public Authority?	No
7	Does the proposed alteration indicate that the EPA should conduct an Appropriate Assessment (on foot of a screening for Appropriate Assessment)?	No
8	Does the proposed change conflict with BAT as set out in the relevant BAT Conclusions? See <a href="#">here</a>	No
9	Does the proposed alteration adversely affect the energy efficiency of the installation/facility?	No
10	Does the proposed alteration adversely affect the environmental risk of the installation/facility <b>significantly</b> ?	No

## Licence Alteration Request

11	Does the proposed alteration cause an increase above the capacity limitations specified in the licence?	No
12	Does the proposed alteration require an extension of operating hours (where controlled by the licence) for an installation/facility where the public is likely to have an interest in such an extension?	No
13	Does the proposed alteration involve the incineration or co-incineration of waste materials displaying hazardous properties that were not previously authorised (as per the WID/IED)?	No
14	Does the proposed alteration introduce materials or techniques which adversely alter the probability, magnitude and duration or complexity of the site transboundary impact?	No
15	Does the proposed alteration constitute a substantial change?	No
16	Does the proposed alteration require a change to a condition or schedule of the Licence?	Yes

### Recommendation

Based on your responses to the forgoing questions the recommended option is for you to submit a 'Request Licence Amendment' for this proposed alteration.

To submit this request to the EPA you should locate it in the 'Request Alteration' area in LMA. Click on 'Proceed' against this saved request, and then click on the 'Request Licence Amendment' button (in STEP 2 of the process). Then you will be required to provide more detailed information about your proposed amendment.

Note: The responses you have provided in this Screening Report will form part of the information record if you decide to proceed with this alteration request.

Recommendation Date: 31/07/2015

## Clerical or Technical Amendment Application Details

### Proposed Alteration Description

The ESE open yard area has been used for storage of wrapped bales.

Greenstar is instructed that baled and wrapped MSW must be stored on impermeable hardstand which drains to the effluent drainage system. The Agency has notified Greenstar that MSM should not be stored in areas that drain to the site storm water drainage system.

Following discussions with the Agency, it was agreed to make a submission proposing that drainage in the open yard area is diverted to the existing effluent drainage system. This necessitates a connection to the existing foul water drainage system which discharges to the public sewer at SE1.

Since a TA in 2010, foul waters generated from the facility are conveyed via the on-site foul water drainage system to the existing sanitary authority foul water system located adjacent to the Deep Water Quay access Road. The TA set a low discharge limit of 4.4m<sup>3</sup>/day (Schedule F.2).

Attached report from IE Consulting Engineers provides assessment of proposed discharge.

<b>Priority</b>	3. Urgent
<b>Category of Amendment</b>	(c) Otherwise facilitating the operation of the licence (or certificate) and the making of the amendment does not result in the relevant requirements of section 83(5) of the EPA Act as amended/ section 42B(1) of the Waste Management Act as amended/environmental requirements ceasing to be satisfied

### Licence Condition Changes

Condition / Schedule Reference	Current Condition / Schedule Wording	Suggested New Wording
Schedule F.2	F.2 Emissions to Sewer Emission Point Reference No: SE- 1 Location : Volume to be emitted: On Deep Water Berths Road close to the facility entrance Maximum in any one day: 4.5 m <sup>3</sup>	F.2 Emissions to Sewer Emission Point Reference No: SE- 1 Location : Volume to be emitted: On Deep Water Berths Road close to the facility entrance Maximum in any one day: 146 m <sup>3</sup>

## Licence Alteration Request

### Questions

Q1	Is planning permission required to support the proposed alteration?	No
Q2	Does the application involve an installation boundary change?	No
Q3	Does the application involve changes to emissions to sewer?	Yes
If 'Yes', please attach Irish Water agreement for changes to emissions to sewer here If 'Yes', please attach Irish Water agreement for changes to emissions to sewer here		IE1045_Report_1330_Rev-5.0- -ISSUE.PDF
<p>If 'Yes' for an Industrial Emissions Licenced activity, please provide evidence that an equivalent level of protection for the environment as a whole is guaranteed (section 86A (8))</p> <p>e-mail from Irish Water to our consultants, IE Consulting.</p> <p>Niamh,</p> <p>The sewer on Deep Water Quay appears to have sufficient spare capacity. As the proposed discharge is surface water runoff there will be a requirement to attenuate flows (which you are already proposing). The maximum attenuated discharge proposed should be equivalent to the greenfield runoff.</p> <p>If you have any queries, please give me a call.</p> <p>Regards,</p> <p>Denise McManus</p> <p>Regional Wastewater Networks Specialist (North West Region)</p> <p>Irish Water</p> <p>T: (07497) 43904</p> <p>M: 087 313 0307</p> <p>E: &lt;mailto:dmcmanus@water.ie&gt; dmcmanus@water.ie</p>		
Q4	Attach Appropriate Assessment Screening Report here	IE1046_Report_1377_Rev-2.0- -ISSUE.PDF
