RE: License No: W0140-04

To whom it may concern

I Chantel Lynch wish to lodge an objection to the agency proposed determination on the license review application of REG No: W0140-04 Nurendale Ltd T/A Panda Waste Services Rathdrinagh Beauparc Navan Co Meath.

I am living here since I was a child long before Panda ever set up business here; my house is approximately 65mtrs from the entrance to the facility. Prior to Panda starting up it was a lovely area to grow up in, now that I have children of my own I cannot say the same.

Every year it is getting worse and worse with noise and odour and nobody including the EPA is listening to our concerns. We feel that the EPA are making the Beauparc area a dumping ground for the rest of the country, with the Knockarley Landfill up the road from us and the Indaver incinerator in Duleek, do we need to add a Biogas Plant to the area

The Bio gas plant process which Panda intend to operate is similar to the process which caused outbreaks of Listeria in Germany in 2011. If such an outbreak was to occur in our area may we ask how your agency proposes to deal with such an occurrence. Do the agency realise the serious health implications associated with Biomass, we would respectfully request the agency to address such concerns.

Thanking you in anticipation

Yours sincerely

Chantel & Gary Lynch

Could you please accept the following local residents which also have a concern as part of my objection

Ann Fitzpatrick, Martin Brennan, Patrick Brennan, Michael Brennan, Bridget Dooner
