TECHNICAL AMENDMENT A  
TO  
INDUSTRIAL EMISSIONS LICENCE

<b>Licence Register Number:</b>	W0082-03
<b>Company Registration Number:</b>	527552
<b>Licensee:</b>	Starrus Eco Holdings Limited
<b>Location of Installation:</b>	Ballykeefe, Dock Road, Limerick.

## ***Reasons for the Decision***

The Environmental Protection Agency is satisfied, on the basis of the information available, that subject to compliance with the conditions of licence Reg. No. W0082-03 granted on the 15<sup>th</sup> May 2015, as well as any amendments noted herein, any emissions from the activity will comply with and not contravene any of the requirements of Section 83(5) of the Environmental Protection Agency Act 1992 as amended.

A screening for Appropriate Assessment was undertaken to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activities, individually or in combination with other plans or projects are likely to have a significant effect on any European Site.

The activities are not directly connected with or necessary to the management of any European Site and the Agency considered, for the reasons set out below, that it can be excluded, on the basis of objective information, that the activities, individually or in combination with other plans or projects, will have a significant effect on any European Site and accordingly determined that an Appropriate Assessment of the activities was not required.

This determination is based on the fact that the technical amendment is adding more stringent conditions to the licence resulting in greater licence controls and thus further ensuring that the activity will not have a significant effect on any European Site.

## ***Technical Amendment***
