1.4 Due to the nature of the material when the bale is wrapped you can find small items protruding through the wrap we believe this should be acceptable and is not perceived as a damaged bale.

Reference: Wrapping of baled municipal waste:

Clarification is needed on this.

Reference to 1.4 a designated fire quarantine area.

cases a lot of remedial work will need to be done on site.

6 months to prepare plan and a further 6 months for complete compliance with the plan as in some

following:

We believe the timeline for implementation of the waste storage plan is too short and suggest the

with the agency.

additional precautions/ checks will have to be put in place if the situation arose and could be agreed

In cases where markets dictate it is no option for shipping or value seriously dropped. Obviously

storage plan to be able to substantially increase the amounts stored with the consent of the agency.

extra capacity for short term delays in shipping etc. There is also a need for an option in the waste

While we feel the waste plan when generated will be sufficient for normal activity and will include an

Transfer Stations is available in order to be considered when putting our plans together.

it is critical that the proposed updated EPA Guidance Note: Fire Safety at Non-Hazardous Waste

We would like to make the following submission in relation to the above proposal.

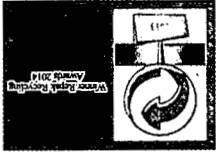

Proposed technical Amendment to license: W0253-01 in light of the above proposal.

To whom it may concern:

Quin Road Business Park, Ennis, Co. Clare
