To whom it may concern ...I Helen Kearns would like to object to pandas objection (ref W0140-04).Panda have a history of non compliance with conditions set down as part of the licence application .I see by their objections prepared by (o'callaghan Moran +Associates)that panda are trying to change the submissions to suit themselves with little regard to the enviroiment and the impact on their neighbours .Panda were instructed by Meath co.council not to use the gate from panda facing the N2 .This is constantly being breached as I watch them on a daily basis .This is the kind of behaviour that continues with no regard for rules or regulations ,it is an absolute disgrace that this gate is being used.I live directly across the road from this site and as it stands there have been numerous occasions of foul smells .Last Saturday morning at 8.35 to five lorries parked directly outside my home with crows picking rubbish from them ,how do you think I feel looking at this ...I was recently in contact with one of your employees to visited this site as I was complaing of odours and the visited the site and found odours .I ask that the EPA must stick to their conditions and not be persuaded to lighten the rules ...yours sincerely Helen Kearns Sent from my iPhone
