Reg No; W0140-04-160629122541

Subject; objection to Panda/Nurendale proposed decision to number of conditional changes submitted by Mr David Naughton Nurendale / Panda. On 29/06/2016

Given this Company previous history to Non Compliance with other previous licence conditions laid out by Agency, I as a local Residence have to witness on a daily bases.

- Accessing & Exiting on to busy N2 as early as 4am & continuously in operation evening & weekends all hours despite Meath CC instructions not to use this Gate, Accident Waiting to happen, witnessing traffic continuously having to slow down to a halt at times because of large trucks exiting on to N2, lack of road signage requesting to slow down coming up to The cross / Brink / Panda gate. Back as far as January 2014 submitted objection to usage of gates to Meath CC on noise pollutions including Agency.
- EPA Agency operates 9am to 5pm Panda / Nurendale will and is operating 24 /7 what Protocol will be adhered to out of hours. As this company continuously disregards the conditions of the licence agreed by Agency EPA.
- Constant foul odours & other Emissions
- Constant noise pollution especially at unsociable hours.
- Congestion of trucks on N2 waiting to access site causing impairment to other traffic users. While also causing odours Emissions into the atmosphere and residential homes (poor air quality) in area.
- Panda / Nurendale recognises the need to effectively control odours by an Negative air system that clearly does not work given rise to odour Nuisance especially Knockcommon rd N2, Residential homes, area.

The EPA Agency must stick to their guide lines in relation to granting Panda / Nurendale any changes to their licence application.

Yours sincerely

Therese Outram, John Outram, Simon Outram, Raymond Outram
