AA Screening Determination:

That the activity is not directly connected with or necessary to the management of any

European site and that it can be excluded, on the basis of objective information, that the activity, individually or in combination with other plans or projects, will have a significant effect on any European site and accordingly determined that an Appropriate Assessment of the activity was not required.

The reasons for which the Agency determined that an Appropriate Assessment of the activity is not required are as follows:

- The facility is not located within the above listed European Sites.
- There will be no emissions of environmental significance from the activity.
- There is no hydrological connection between the facility and the European Sites.
- There are no connecting pathways between the facility and the European Sites for indirect effects to occur.
- The activity will not result in damage to, or loss of, species and habitats of these European Sites.
