Recommendation

Based on your responses to the forgoing questions the recommended option is for you to submit a 'Request Licence Amendment' for this proposed alteration.

To submit this request to the EPA you should locate it in the 'Request Alteration' area in LMA. Click on 'Proceed' against this saved request, and then click on the 'Request Licence Amendment' button (in STEP 2 of the process). Then you will be required to provide more detailed information about your proposed amendment.

Note: The responses you have provided in this Screening Report will form part of the information record if you decide to proceed with this alteration request.

Recommendation Date: 22/02/2016

Proposed Alteration Description

Licence W0286-01 states that the location for monitoring emissions to the storm-water sewer is at SW1. SW1 is the outlet for the oil/water separator which discharges the storm-water run-off from the yard, but does not account for the run-off from the rest of the site (i.e. run-off from the car park and from the roof down-pipes is omitted at this location). For the storm water samples to be representative of the whole site, samples should be taken from SW4 - the final mixing location for all storm water before being discharged from the site.

SW1 is mentioned twice in licence W0286-01:

Schedule B Emissions Limits - B.6 Emissions to Storm Sewer - Measured at SW1

Schedule C Control & Monitoring - C.2.3 Monitoring of Storm Water Emissions - Emission Point Reference No: SW1

Priority	1. Routine
Category of Amendment	(b) Facilitating the doing of any thing pursuant to a condition attached to the licence where the doing of that thing may reasonably be regarded as having been contemplated by the terms of the condition or the terms of the licence taken as a whole but which was not expressly provided for in the condition

Licence Condition Changes

Condition / Schedule Reference	Current Condition / Schedule Wording	Suggested New Wording
B.6	Measured at SW1, as presented in licence application	Measured at SW4, as presented on Site Drainage Plan (drawing number 12039-LA-01, dated 09/10/15)
C.2.3	Emission Point Reference No: SW1	Emission Point Reference No: SW4

Questions

Q1	Is planning permission required to support the proposed alteration?	No
Q2	Does the application involve an installation boundary change?	No
Q3	Does the application involve changes to emissions to sewer?	No
Q4	Attach Appropriate Assessment Screening Report here	Article 12 Compliance - contains Appropriate Assessment Screening Report.pdf
