Johnstown Castle Estate
County Wexford, Ireland

24th January 2017

**RE: Waste Licence W0234-02 for the facility at Six Cross Roads, Kilbarry,
Waterford.**

A Chara,

I refer to the above licence which was granted 6th February 2014. The main licensed activity is anaerobic digestion and this has not yet commenced. The site has been unused since the Compost Centre ceased operation.

The likelihood is that the anaerobic digestion activity will commence in early to mid 2018. Waterford City & County Council would like to extend the commencement date of this activity to suit this programme for the following reasons:

- Redevelopment of the site had been held up due to legal issues. These have now been addressed and the Council formally approved the Section 183 motion on January 12th 2017. This allows a lease to be signed with FLI International Ltd. who will now redevelop the Facility.
- There is a 12 month Construction project during which the plant will be commissioned.

I trust that the above information is sufficient to allow you to make a decision, however please do not hesitate to contact the undersigned should you require further details,

Is Mise,

John Nolan
Senior Executive Engineer
