

Facility Information Summary	
AER Reporting Year	2016
Licence Register Number	W0036-02
Name of site	Indaver Ireland Limited
Site Location	Tolka Quay Road
NACE Code	3821 and 3822
Class/Classes of Activity	3.11, 3.12, 3.13, 4.1, 4.13
National Grid Reference (6E, 6 N)	-6.20299, 53.3521
<p>A description of the activities/processes at the site for the reporting year. This should include information such as production increases or decreases on site, any infrastructural changes, environmental performance which was measured during the reporting year and an overview of compliance with your licence listing all exceedances of licence limits (where applicable) and what they relate to e.g. air, water, noise.</p> <p>In 2016, Indaver's waste transfer station provided temporary storage for incoming hazardous and non-hazardous waste, prior to onwards shipping from Ireland to mainly Europe for recovery, disposal and other treatment. There was an overall increase in waste volumes handled compared to 2015 due to increased activity at Indaver's Solvent Recovery Facility. There were no exceedances of licence limits for emissions to atmosphere, ambient air and groundwater. All quarterly surface water results were compliant with the licence. However, there was an exceedance in the conductivity trigger limit for continuously monitored surface water in January due to salting of the yard during adverse weather conditions. This was notified as an incident. In terms of noise monitoring, activities at the Indaver facility did not give rise to noise levels that exceed the permitted noise limit and no tonal or impulsive noise from site activities was recorded. However, the noise monitoring locations are prone to interference from road traffic and from operations at other facilities. There was one environmental complaint, two environmental incidents in 2016, two non-compliances and one compliance investigation.</p>

Answer all questions and complete all tables where relevant

1 Does your site have licensed air emissions? If yes please complete table A1 and A2 below for the current reporting year and answer further questions. If **you do not have** licenced emissions and **do not complete a solvent management plan** (table A4 and A5) you do not need to complete the tables

Additional information	
No	Indaver does not have licensed air emissions and does not complete a solvent management plan

1	Do you maintain an Environmental Mangement System (EMS) for the site. If yes, please detail in additional information	Yes	Procedures include environmental complaints, non-compliances, incident investigation & reporting, identification & evaluation of environmental aspects, monitoring of environmental emissions, monitoring & recording of environmental information, Odour Management Plan, Communications, Processing Corrective Actions and Preventive Actions, QESH policy.
2	Does the EMS reference the most significant environmental aspects and associated impacts on-site	Yes	
3	Does the EMS maintain an Environmental Management Programme (EMP) as required in accordance with the licence requirements	Yes	
4	Do you maintain an environmental documentation/communication system to inform the public on environmental performance of the facility, as required by the licence	Yes	

Environmental Management Programme (EMP) report					
Objective Category	Target	Status (% completed)	How target was progressed	Responsibility	Intermediate outcomes
Additional improvements	Carry out refresher licence training with all relevant personnel.	90	A series of presentations were given in 2016 to operations, logistics and technical personnel based at the transfer station. Refresher training is carried out every year with transfer station operatives and every two years with office-based personnel. Training is ongoing.	Individual	Increased compliance with licence conditions
Additional improvements	Deputy Facility Manager to complete the waste management course.	100	The deputy facility manager completed 6 out of the 6 waste management modules in 2015. Certificate received in February 2016.	Individual	Increased compliance with licence conditions
Additional improvements	Agree with the Agency how the costs will be underwritten and the financial provision for the RMP and ELRA.	100	Financial Provisions for the ELRA and RMP have been submitted and agreed with the Agency.	Section Head	Increased compliance with licence conditions
Additional improvements	Carry out a review of the surface water system in the Transfer Station to ensure robustness.	85	A series of surface water workshops were held throughout 2016 to comprehensively review and improve the surface water system.	Individual	Reduced emissions
Additional improvements	Carry out a review of the Safety Report as a result of the update in the Seveso regulations in 2015.	100	Safety report issued to H.S.A on the 30 th May. Updated the safety report in line with H.S.A request and reissued to H.S.A. on 12 th October.	Individual	Reduced emissions

Environmental Management Programme/Continuous Improvement Programme template				Lic No:	W0036-02	Year	2016
Additional improvements	Review traffic management at the site and put in place a traffic management plan.	100	Traffic Management Plan and RA issued on the 5 th December.	Individual	Reduced emissions		
Additional improvements	Create greater awareness of what the management system is (revamp QESH induction, carry out poster campaign and an awareness campaign)	90	QESH induction and Companywide awareness sessions completed in 2015. This continued into 2016 with various tips and tricks, communication updates issued and article added to the Indaver Insight magazine. QESH days also took place.	Individual	Improved Environmental Management Practices		
Additional improvements	Review of Environmental Aspects.	90	All registers were reviewed and issued in 2016.	Individual	Improved Environmental Management Practices		
Additional improvements	A review to be carried out to assess the integrity of lining of pipes in the Transfer Station's drainage system and to decide if and when it needs to be replaced.	90	Hydrostatic testing of underground drainage started in 2014 and continued into 2015 and 2016. Integrity testing now completed. To begin again in 2017.	Individual	Increased compliance with licence conditions		
Additional improvements	Ensure Quality of Risk Assessments	50	Risk Assessments were included in the audit schedule in 2016.	Team	Reduced emissions		
Additional improvements	Set up and complete Safety Critical Success Factors in the Transfer Station	50	Special process indicators have been agreed with the H&S manager for the Site. Train the Trainer Training to be carried out with 2 people based in the TS. Focusing on ERT Roles and the TS Site Operative role. ERT Leader will be a Trainer in this area and Site supervisor will carry out training for the TS Ops. SRF/Maintenance Co-ordinator will look after the training for the Tanks.	Team	Reduced emissions		
Additional improvements	Gather Certificates relating to TS Licence	40	Document in place for the interceptor and firewall.	Individual	Increased compliance with conditions		
Additional improvements	Optimise QESH MOSS Site to optimise knowledge sharing and use of management system tools	75	Compass 2017 developed. Environmental Site set up which is being populated. Moss site development will be ongoing.	Team	Improved Environmental Management Practices

SECTION C-TO BE COMPLETED BY ALL WASTE FACILITIES (waste transfer stations, Composters, Material recovery facilities etc) EXCEPT LANDFILL SITES

4 Is all waste processing infrastructure as required by your licence and approved by the Agency in place? If no please list waste processing infrastructure required onsite

Yes	
-----	--

5 Is all waste storage infrastructure as required by your licence and approved by the Agency in place? If no please list waste storage infrastructure required onsite

Yes	
-----	--

6 Does your facility have relevant nuisance controls in place?

Yes	
-----	--

7 Do you have an odour management system in place for your facility? If no why?

Yes	Odour is not an issue for this site. However, an odour management procedure is in place.
