TO: Dara Lynott, Director

FROM: Brian Meaney, Inspector, Environmental Licensing Programme

DATE: 25/04/2017

RE: Technical amendment to waste licence register number W0144-01 held by Oxigen Environmental Limited, Coes Road, Dundalk.

In relation to the above technical amendment request, an inspector's report and recommended technical amendment was prepared on 31 March 2017. The Director's approval to issue the technical amendment was given on 10 April 2017. The technical amendment as drafted is in the name of Oxigen Environmental Limited. During preparation of the final document for issue to the licensee, I was advised that the name of the licensee is in fact Oxigen Environmental and this fact was notified to the Agency by the licensee on 19 August 2013. It is consequently necessary to change the name of the licensee on and in the technical amendment before it is issued. The change of name would cause no change to the original recommendation to make a technical amendment to the licence.

Recommendation:

Change the name of the licensee on the technical amendment document as drafted from Oxigen Environmental Limited to Oxigen Environmental.

Signed:-

Brian Meaney
Environmental Licensing Programme
