Subject

LS Approval - Notice - FP Generic Approval

Created Date

04/11/2016

Dear David Naughton,

The Environmental Protection Agency (EPA) has reviewed your submission LR025363 which is financial provision for CRAMP and Environment liability impairment insurance excess by way of a bond.

On the basis of the information provided, the EPA approves the financial provision.

The bond terminates on the expiry date of the 04/10/2018. Under clause 4, a demand may be made if the bond is not replaced or another financial provision is provided to the satisfaction of the EPA by the commencement of one month prior to that date. Failure to maintain financial provision is non compliance to the conditions of your licence.

Yours Sincerely,

Denise O Riordan

OEE Inspector,

Environmental Protection Agency
