

Section L Statutory Requirements Attachments

Attachment L.1. Statutory Requirements

Indicate how all the requirements of Section 40(4)[(a) to (j)] of the Waste Management Act 1996, as amended, will be met.

- (a) any emissions from the recovery or disposal activity in question (“the activity concerned”) will not result in the contravention of any relevant standard, including any standard for an environmental medium, or any relevant emission limit value, prescribed under any other enactment,

Donegal County Council will operate the facility to comply with emission standards and limits set out in the Waste licence were applicable.

- (b) the activity concerned, carried on in accordance with such conditions as may be attached to the licence, will not cause environmental pollution,

The site is unlined but has been restored with a cap and leachate treatment system (willow and ICW) has been installed. The facility will be operated to ensure that the operations post restoration will not cause any environmental harm.

- (c) the best available technology not entailing excessive costs will be used to prevent or eliminate or, where that is not practicable, to limit, abate or reduce an emission from the activity concerned.

The site is unlined but has been restored with a cap and leachate treatment system. Donegal County Council will employ BAT to limit , abate or reduce an emission from the activity concerned,

- (d) if the applicant is not a local authority, the corporation of a borough that is not a county borough, or the council of an urban district, subject to subsection (8), he or she is a fit and proper person to hold a waste licence,

Donegal County Council as a local authority.

- (e) the applicant has complied with any requirements under section 53

As a Local Authority, Donegal County Council is fully committed to the on-going investment as required by this facility to ensure that it is properly managed environmentally.

Appropriate Assessment

An Appropriate Assessment has been carried out for the proposed project in accordance with Article 6.3 of the Habitats Directive. This is included in Attachment B.3. .

L.2 Fit and proper Person

Management of the landfill site is as follows.

Management Structure

Senior Engineer: Overall responsibility for the management of the site and maintenance of the Waste Licence. Delegation of authority and responsibility to ensure the effective management of the facility.

Executive Engineer: Responsible for the operational management of the facility as directed by the Senior Engineer.

As a Local Authority, Donegal County Council is fully committed to the on-going investment as required by this facility to ensure that it is properly managed environmentally.
