Dear Mr Grehan

The Agency has considered your query under section 98A of the EPA Act 1992 as amended and has decided that a new Industrial Emissions licence application is the appropriate course of action for your client. You are accordingly invited to make an application for a new licence to come into force, if granted, in substitution of the existing licence register number W0201-03.

The attached report sets out the matters taken into consideration by the Agency in making its decision and the reasons for its decision.

Yours sincerely,

---
