

Irish Water,
Colvill House,
24/26 Talbot Street,
Dublin 1

14/07/2017

Dear Sir or Madam

I refer to your application for waste water discharge licence for the agglomeration named Mogeely.

I am to advise you in accordance with Regulation 42(8)(a) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended that the Agency has made a determination that an Appropriate Assessment is not required as the project, individually or in combination with other plans or projects, is not likely to have a significant effect on a European site(s).

The Appropriate Assessment Screening Determination is available to view below this notice. Please direct any queries that you may have in relation to the above to Yvonne English at 053-9160600 or to OCLR Admin Team B.

Yours sincerely

Yvonne English,
Environmental Licensing Programme

Appropriate Assessment Screening Determination

In accordance with Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, the Agency has undertaken Appropriate Assessment screening to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activity, individually or in combination with other plans or projects is likely to have a significant effect on a European Site(s). In this context, particular attention was paid to the European Site(s) listed below.

Licence Application Details:

Reg. No.:	A0558-01
Applicant Name:	Irish Water
Location of Agglomeration:	Mogeely, Co. Cork
Licence Application Date:	24/03/2017
European Site(s) assessed:	Ballymacoda (Clonpriest and Pilmore) SAC (Site Code: 000077) Ballymacoda Bay SPA (Site Code: 004023)
Date of AA Screening Determination:	14/07/2017

AA Screening Determination:

That the activity is not directly connected with or necessary to the management of any European Site and that it can be excluded, on the basis of objective information, that the activity, individually or in combination with other plans or projects, will have a significant effect on any European Site, and accordingly determined that an Appropriate Assessment of the activity was not required.

- The water quality of the Womanagh_010 River improves approximately 1.4km downstream of the Mogeely primary discharge point from 'Moderate Status' to 'Good Status' under the Water Framework Directive.
- The level of treatment in the Mogeely WWTP (tertiary treatment) which is capable of achieving high quality effluent standards.
- There has been no deterioration of water quality downstream of the agglomeration under the Water Framework Directive.
- The distance from the Mogeely agglomeration to the downstream European Sites.
