Re: Youghal Waste Water Discharge Licence - Technical Amendment D0139-01A

Dear Breen,

Further to the Technical Amendment that was issued by the Agency on the 22nd May 2017, Irish Water wishes to advise the Agency that the new wastewater treatment plant at Youghal has been commissioned and is now operational. The treated wastewater is being discharged via SW000 (210513E 078480N) and is meeting the emission limit values laid out in Schedule A.1 of the Technical Amendment. A formal 30 day process proving period will commence on 8th December.

Irish Water wishes to advise the Agency, as part of the commissioning phase of the network, that ongoing testing and remedial actions are being undertaken on the rising main pipeline connecting the catchment of Paxe's Lane. Irish Water will notify the Agency once the remedial actions are completed. It is expected that this rising main will be operational by January 2018.

I trust the above is to your satisfaction, if you require any additional information please do not hesitate in contacting me.

Regards,

Eleanor Roche
Environmental Regulation Manager
