Subject: EIA and PI Rfe 15600089

Derry,
Permission was granted under PI Ref 15600089 for retention for integrated constructed wetlands associated site works on the Milltown Composting Systems Ltd site at Milltownmore, Fethard, Co. Tipperary.

The development is not a prescribed class of development that requires Environmental Impact Assessment (EIA) and therefore EIA was not required in respect of the development.

Regards
Jonathan Flood
