**Re: Notification under Section 87 (1D) (a) of the EPA Act, as amended regarding Licence application reference number W027-02**

Dear Ms Richards,

Planning permission was granted under PI Ref 17600372 for an increased throughput of organic waste material at the existing Miltown Composting Ltd. facility from 24,5000 to 50,000 tonnes per annum. The details provided with PI Ref 17600372 advised that the range of wastes accepted at the facility will not change as a result of the proposals.

This application was subject to an Environmental Impact Assessment. The grant of permission was subject to 2no. conditions. This application is available to view on Tipperary County Council's website.

The Planning Authority have examined the EIS submitted as part of IPPC License application **W027-02** and the EIS appears the same as the EIS submitted with PI Ref 17600372.

Yours sincerely,

For Director of Services
