Provide measures to reduce emissions
(list techniques)

Maintenance on Equipment, Reduce number of fans running at night – Noise Assessment Report Attached

Following the guidance populate the monitoring points and then the proposed sound limits in the table below.

Monitoring point code	Easting	Northing	Monitoring point type ⁱ	Proposed sound limits (dB)				Proposed monitoring frequency
				Max noise level daytime (30 mins)	Max noise level evening (30 mins)	Max noise level night (30 mins)	How was the sound limit derived? ⁱⁱ	
N1	154130	268080	Boundary	55	50	45	EPA - NG4	Annual
N2	154429	267977	Boundary	55	50	45	EPA - NG4	Annual
N3	154565	268034	Boundary	55	50	45	EPA - NG4	Annual
N4	154519	268143	Boundary	55	50	45	EPA - NG4	Annual

For inspection purposes only. Consent of copyright owner required for any other use.

ⁱ **Monitoring point type options:** 'Boundary', 'Noise Sensitive Location' or 'Permanent Noise Monitoring'
ⁱⁱ **Derived sound limit options:** 'EQS', 'BAT' or 'Derogation'
