

- a) top soil (150 -300mm);
- b) subsoils, such that total thickness of top soil and subsoils is at least 1m;
- c) drainage layer of 0.5m thickness having a minimum hydraulic conductivity of 1×10^{-4} m/s;
- d) compacted mineral layer of a minimum 0.6m thickness with a permeability of less than 1×10^{-9} m/s or a geosynthetic material (e.g. GCL) or similar that provides equivalent protection; and
- e) gas collection layer of natural material (minimum 0.3m) or a geosynthetic layer.

Donegal County Council hereby requests that this Condition 4.4 of the licence be amended to allow options such as an alternative engineered cap and the installation of an ICW to be considered by the Agency.

Yours sincerely,

Julie McMahon
Executive Engineer
On behalf of Donegal County Council
