TECHNICAL AMENDMENT B
TO
INDUSTRIAL EMISSIONS LICENCE

Licence Register Number:	W0020-02
Licensee:	Monaghan County Council
Location of Installation:	Scotch Corner Landfill, Letterbane, Annyalla, Castleblayney, Co. Monaghan

Reasons for the Decision

The Environmental Protection Agency is satisfied, on the basis of the information available, that subject to compliance with the conditions of licence register number W0020-02 granted on the 24/3/2010 and amended on 15/1/2013 and 7/1/2014 as well as any amendments noted herein, any emissions from the activity will comply with and not contravene any of the requirements of Section 83(5) of the Environmental Protection Agency Act 1992 as amended.

A screening for Appropriate Assessment was undertaken to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activity, individually or in combination with other plans or projects is likely to have a significant effect on any European Site. In this context, particular attention was paid to the European Sites at Dundalk Bay SPA and SAC.

The activity is not directly connected with or necessary to the management of any European Site and the Agency considered, for the reasons set out below, that it can be excluded, on the basis of objective information, that the activity, individually or in combination with other plans or projects, will have a significant effect on any European Site and accordingly determined that an Appropriate Assessment of the activity was not required. The reasons are as follows:

- There are no European sites within 20km of the licensed facility; and
- The Dundalk Bay SAC and SPA are approximately 35km as the crow flies from the licensed facility and more than 44km downstream following the path of the River Fane.

Technical Amendment

Henceforth, the licence shall be read in conjunction with a Section 82A(11) amendment issued on 7/1/2014, Amendment A issued on 15/1/2013, and the amendments set out below.

This technical amendment is limited to the following:
