Re: Historic Closed Landfill at Moate (licence H0456-01) – Certificate of Authorisation

Dear Mr Meaney,

I wish to refer to the above application for a Certificate of Authorisation application which was lodged on 26th September 2013, in respect of the historic closed landfill at Clara Road, Moate.

Westmeath County Council are most anxious to complete the proposed landfill remediation works at this landfill in accordance with the Tier 3 Risk Assessment report (copy attached) prepared by O'Callaghan Moran & Associates on behalf of this authority. Funding through the Department of Communications, Climate Action & Environment is allocated to complete these necessary works and therefore I would be obliged if you would advance the processing of this application for Certificate of Authorisation as a matter of priority.

If you have any query on the above matter please do not hesitate to contact myself or Ciaran Jordan, Senior Executive Engineer, Environment Section (tel 044 9332177 or by email at cjordan@westmeathcoco.ie).

Yours sincerely,

Martin Murray
