**Re: Declan Sullivan ~ Licence Application Reg. No. P1065-01
Unsolicited Additional Information**

Dear Elizabeth

Please see detailed below energy usage for 2017. As you will appreciate actual gas/ESB usage will typically be dependent on prevailing weather conditions.

- Gas usage 2017 was 5222 Litres on 28,000 birds and 2.5 batches = 0.075 litres/bird.
(This does not take account of opening/closing stock of gas in the tank)
- ESB usage 2017 was 27,500 units on 28,000 birds and 2.5 batches = 0.4 units/bird.

No revisions are required to the non-technical summary as a result of this additional information.

If you require any further information please contact this office.

Yours sincerely,
