## HSE EIS Submission REPORT

**Environmental Health Service Consultation Report**  
*(as a Statutory Consultee (Planning & Development Acts 2000  
and Regulations made thereunder)*

**Type of consultation: EIS Scoping Screening (constraints)**  
**Other (please specify) Industrial Emissions Licence Review**

**Planning Authority:**

N/A

**Reference Number: W0104-04**

**EHIS Reference No.: 0821**

**Applicant:**

Advanced Environmental Solutions (Ireland) Ltd, c/o Bord na Mona Offices  
Main Street, Newbridge, Co. Kildare

**Proposed Development:**

AES (Ireland) Ltd is applying to the EPA to have its Industrial Emissions Licence reviewed in relation to its facility at Cappincur Industrial Estate, Cappincur, Tullamore, Co. Offaly R35HP93

### General Introduction

The Environmental Health (EH) service response to the proposal is as follows:

The assessment is based on receipt of EPA documentation submitted to this office on 10/08/18 by the National Environmental Health Office.

The EIAR was downloaded from the EPA website and read. This office is concerned primarily with highlighting issues of public health and environmental concerns. This office has received no environmental complaints in relation to the past or present operation of this facility.

All commitments to future actions including mitigation and further testing have been taken as read and all data results have been accepted as accurate. No additional investigations / measurements were undertaken.

In relation to these types of developments the areas of concern from an environmental health perspective are soils and geology, water, air, noise and material assets. These areas of concern are addressed in the EIAR downloaded from the EPA website. Provided that the measures as outlined in the EIAR are strictly adhered to and that best available techniques (BAT) for waste recovery / disposal are complied with, this department would have no other response to make in relation to the licence application.

Signed:

Dympna O'Grady  
Environmental Health Officer

Declan Mulhare  
Principal Environmental Health Officer
