

## Licence Alteration Request

Alteration Details	
Licence	<b>W0034-02 Dundalk Landfill &amp; Civic Waste Facility</b>
Licensee	Louth County Council
Title of Alteration	<b>Request to replace emission to sewer, S2 with Emission Point F1</b>

### Screening Report

No.	Question	Answer
1	Does the proposed alteration require a new class of activity or process?	No
2	Does the proposed alteration cause a new / additional main emission point?	No
3	Does the proposed alteration increase or change specified emissions <b>significantly</b> ?	No
4	Does the proposed alteration increase <b>significantly</b> the overall total emission from the installation/facility?	No
5	Does the proposed alteration involve development or proposed development that has already been granted planning permission or requires a grant of planning permission and was/is subject to EIA by the Planning Authority or An Bord Pleanála?	No
6	Did the proposed alteration require the preparation of a Natura Impact Statement (NIS) for consideration by any Planning or Public Authority?	No
7	Does the proposed alteration indicate that the EPA should conduct an Appropriate Assessment (on foot of a screening for Appropriate Assessment)?	No
8	Does the proposed change conflict with BAT as set out in the relevant BAT Conclusions? See <a href="#">here</a>	No
9	Does the proposed alteration adversely affect the energy efficiency of the installation/facility?	No
10	Does the proposed alteration adversely affect the environmental risk of the installation/facility <b>significantly</b> ?	No

## Licence Alteration Request

11	Does the proposed alteration cause an increase above the capacity limitations specified in the licence?	No
12	Does the proposed alteration require an extension of operating hours (where controlled by the licence) for an installation/facility where the public is likely to have an interest in such an extension?	No
13	Does the proposed alteration involve the incineration or co-incineration of waste materials displaying hazardous properties that were not previously authorised (as per the WID/IED)?	No
14	Does the proposed alteration introduce materials or techniques which adversely alter the probability, magnitude and duration or complexity of the site transboundary impact?	No
15	Does the proposed alteration constitute a substantial change?	No
16	Does the proposed alteration require a change to a condition or schedule of the Licence?	Yes

### Recommendation

Based on your responses to the forgoing questions the recommended option is for you to submit a 'Request Licence Amendment' for this proposed alteration.

To submit this request to the EPA you should locate it in the 'Request Alteration' area in LMA. Click on 'Proceed' against this saved request, and then click on the 'Request Licence Amendment' button (in STEP 2 of the process). Then you will be required to provide more detailed information about your proposed amendment.

Note: The responses you have provided in this Screening Report will form part of the information record if you decide to proceed with this alteration request.

Recommendation Date: 31/01/2017

**Clerical or Technical Amendment Application Details**

**Proposed Alteration Description**

S2 as set out in Schedule C.4. of the waste licence was intended to collect leachate from the Southern Boundary of the unlined landfill. It has never collected any leachate due to its installation level being above the high tide level of the adjoining estuary. See drawing 1117/02/115 attached.  
 Low level contamination of the drainage ditch along the northern boundary of the landfill has been occurring for some time and a Compliance investigation (CI) is ongoing with the OEE. In order to resolve this CI it is proposed to install a similar type Connection Channel, as previously installed along the southern boundary, along a 110m section of the northern boundary. See Drawing IBR0785/003 attached. Low level contaminated water would be collected in a sump and pumped to foul sewer under licence from Irish Water (IW). IW have already given permission to connect sewer at a new location marked F1 on the attached drawing IBR0785/003.

<b>Priority</b>	1. Routine
<b>Category of Amendment</b>	(b) Facilitating the doing of any thing pursuant to a condition attached to the licence where the doing of that thing may reasonably be regarded as having been contemplated by the terms of the condition or the terms of the licence taken as a whole but which was not expressly provided for in the condition

**Licence Condition Changes**

Condition / Schedule Reference	Current Condition / Schedule Wording	Suggested New Wording
6.7.1 & C.4	Condition 6.7.1 Unless otherwise agreed with the Agency and the Sanitary Authority, the following shall apply for the /discharge of waste water, which shall be via the foul sewer indicated on Drawing No. 249-002c 'Site Layout Map' and 5429.21/03'Drainage Layout' of this application. There shall be no there discharge or emission to sewer of environmental significance.	Replace emission point S2 as indicated on Drawing 1117/02/115 and referenced in Schedule C.4, with alternative emission point to sewer F1 as indicated on Drawing IBR0785/003. Emissions to sewer to be in accordance with Irish Water Letter of Offer dated 12/12/16.

**Questions**

Q1	Is planning permission required to support the proposed alteration?	No
Q2	Does the application involve an installation boundary change?	No
Q3	Does the application involve changes to emissions to sewer?	Yes
If 'Yes', please attach Irish Water agreement for changes to emissions to sewer here If 'Yes', please attach Irish Water agreement for changes to emissions to sewer here		IW Letter of Offer.pdf
If 'Yes' for an Industrial Emissions Licenced activity, please provide evidence that an equivalent level of protection for the environment as a whole is guaranteed (section 86A (8))		
NOT APPLICABLE		
Q4	Attach Appropriate Assessment Screening Report here	ScreeningReport (2).pdf
