

EIA Screening Determination

In accordance with Section 83(2A) of the EPA Act 1992, as amended, the Agency has, as part of its consideration of the IE review application referenced below, determined whether the application should be made subject to an Environmental Impact Assessment (EIA) as respects the matters that come within the functions of the Agency. The determination, and the reasons for the determination, are detailed below.

Licence Application Details:

Reg No.	P1087-01
Applicant Name:	AbbVie Ireland NL. BV
Location of Installation:	Ballytivan, Sligo, Co. Sligo
Licence Application Date:	05 September 2018
Date of EIA Screening Determination:	22 October 2018

EIA Screening Determination:

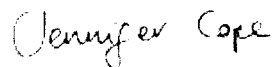

EIA, as respects the matters that come within the functions of the Agency, is required for the activity to which the above licence application relates due to the following reasons:

Having considered the information provided by the applicant, it has been determined that the activity constitutes a project to which the EIA Directive applies and is likely to give rise to significant effects on the environment by virtue of its nature, size and location.

The activity is of a type of project specified in Schedule 5 of the Planning and Development Regulations 2001 as amended

Chemical Industry (*development not included in Part 1 of this Schedule*)

(b) All installations for production of pesticides and pharmaceutical products, paint and varnishes, elastomers and peroxides using a chemical or biological process.
