Recommendation

Based on your responses to the forgoing questions, the recommended option is for you to submit a Request for Approval of your proposed change, under Condition 1 of your licence, to the Office of Environmental Enforcement. This 'Request for Approval' should be submitted to your OEE regional team via the 'Request Alteration' which can be accessed via your EDEN log-in in the LMA application.

By selecting the 'Proceed' button within the 'Request Alteration' option, you will find your proposed change listed in the 'Saved Application' list. By choosing the 'Request for Approval' option in this application, you will be directed to complete a 'Licensee Return' to request approval from OEE.

Note: The responses you have provided in this Screening Report will form part of the information record if you decide to progress with this alteration request.

Clerical or Technical Amendment Application Details

Proposed Alteration Description

I refer to our meeting on 11th May 2018 RE. W0020-02 Licence Review in EPA buildings, Dublin.

At that meeting EPA highlighted the decision in the EPA v Midland Scrap Metal Co. Ltd case, & recommended that Monaghan County Council (MCC) review the case & its own situation in light of decision in the case.

MCC has reviewed its licensing arrangements in light of recent developments, and on foot of this review, now wishes to amend its licensing structure at the Scotch Corner facility, as follows:

1. It is proposed that the MCC will apply for a Technical amendment of W0020-02 to remove the MRF and CA site (currently operated by McElvaney Waste and Recycling) from the current IEL W0020-02)
2. It is proposed that McElvaney Waste will apply to MCC for a Waste Permit for operation of the MRF and CA site at Scotch Corner.

It is our understanding that the above arrangements are necessary in order to keep the Council compliant with all current legislative and regulatory requirements.

Priority	3. Urgent
Category of Amendment	(c) Otherwise facilitating the operation of the licence (or certificate) and the making of the amendment does not result in the relevant requirements of section 83(5) of the EPA Act as amended/ section 42B(1) of the Waste Management Act as amended/environmental requirements ceasing to be satisfied

Licence Condition Changes

Condition / Schedule Reference	Current Condition / Schedule Wording	Suggested New Wording
1.2	1.2 For the purpose of this licence, the facility is the area of land outlined in red on the drawing entitled MON/EIS/Site Plan of the Environmental Impact Statement (EIS). Any reference in this licence to "facility" shall mean the area thus outlined in red, which also includes the shaded area on the drawing entitled Mon/EIS/Site Plan.	1.2 For the purpose of this licence, the facility is the area of land outlined in red on the drawing entitled "Proposed Site Boundary (In Red)" dated 14-06-18.

Questions

Q1	Is planning permission required to support the proposed alteration?	No
Q2	Does the application involve an installation boundary change?	Yes
If 'Yes', for a proposed site boundary reduction please attach an OEE Exit Audit Approval for the reduced boundary area. In the case of an installation boundary increase for an Industrial Emission Licenced activity, you are required to provide the reason that you consider a Baseline Report is not required. In the case of all boundary changes also provide an updated site boundary location map in accordance with Section B of the EPA Licence Application Form.
