

Appropriate Assessment Screening Determination

In accordance with Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, the Agency has undertaken Appropriate Assessment screening to assess, in view of best scientific knowledge and the conservation objectives of the site, if the **activity**, individually or in combination with other plans or projects is likely to have a significant effect on a European Site(s). In this context, particular attention was paid to the European Site(s) listed below.

Consent Details:

Reg. No.	W0270-02
Applicant Name:	Miltown Composting Systems Limited
Type of Consent Sought:	Industrial Emissions Licence
Location of installation:	Miltownmore, Fethard, County Tipperary, Tipperary, E91X8E8
Licence Application Date:	9 th January 2018
European Site(s) assessed:	Lower River Suir SAC (002137)
Date of AA Screening Determination:	27 th November 2018

AA Screening Determination:

That the activity is not directly connected with or necessary to the management of any European site and that it can be excluded, on the basis of objective information, that the activity, individually or in combination with other plans or projects, will have a significant effect on any European site and accordingly determined that an Appropriate Assessment of the activity was not required. This decision was made for the following reasons:

- Surface water emissions consist of run off from site building roofs and non-process related yard areas.
- The prevailing wind at the site is from a southerly direction, whereas the European site is located approximately 6km to the south east of the site.
