Mr. Paraic Fay

Mr. William Murphy

On behalf of Clondrisse Pig Farm Limited

5/12/18

Reg. No.: P0975-02

Regulation 10(2)(b)(ii) of the EPA (Industrial Emissions) (Licensing) Regulations 2013, in respect of a licence review from Clondrisse Pig Farm Limited for an installation located at Clondrisse Pig Farm Limited (Joristown Upper), Joristown Upper, Killucan, Westmeath, N91 HK27

Dear Sir or Madam,

I refer to the application for a licence received by the EPA on 11 June 2018.

Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with the above mentioned legislation. You are therefore requested, in accordance with the regulations, to supply the information detailed below.

1. Provide evidence that a newspaper notice was published in accordance with Regulation 4(1) of the Industrial Licensing Regulations (S.I. no 137 of 2013).
2. Provide details on the impact of emissions from the facility on nearby European sites. It may be appropriate to use SCAIL (or alternative) to support your assessment. This information should be included in an updated NIS. Raw input data that is included in the model and any assumptions made should be submitted to the Agency in your response.
3. A BAT Assessment was submitted in Section 4.7 of the application form. Please review and if appropriate the table entries in relation to BAT 16, 30 and 32.
4. Provide details on emissions to ground in particular in relation to the septic tank and the percolation area.
5. Provide a completed Record 3 form for 2017.
6. Section 9.1 of the Application form it is stated that there is no emergency response procedure for the facility. Provide details on the measures in place to deal with event of a spillage of slurry on site. Provide details of any alternative arrangements in place for acceptance of your slurry off-site.
7. Provide clarification on slurry storage capacity at the installation. The documentation states that the existing storage is 4,586 m<sup>3</sup> and the proposed storage

is 5,752 m<sup>3</sup>. Is this additional to or inclusive of the existing storage. Provide information on the current levels of slurry generated per year.

8. The proposal is to use approx.. 7,500 m<sup>3</sup> of groundwater per annum. There is no evidence in the EIS or the application of an assessment of the impacts of using this volume of water or other users in the area. What contingency plans are in place if the yield of this well is reduced during extended periods of dry weather?
9. Submit Appendix 2 to the EIS which was not included in the application submitted to the EPA.

In addition to the above, please also provide an updated non-technical summary (Application Form, and EIS where applicable) to reflect the information provided in your reply, insofar as that information impinges on the non-technical summary.

The requested information should be submitted to the Agency within eight weeks of the date of this notice, in order to allow the Agency to process and determine your application.

It should be noted that the eight-week period within which the Agency is to decide the proposed determination will commence on the day on which this notice has been complied with. If you have any further queries please contact [licensing@epa.ie](mailto:licensing@epa.ie).

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Your response to this request is to be submitted via EDEN. Guidance on how to use this portal is available on the EPA website at <http://www.epa.ie/pubs/forms/lic/industrial%20emissions/licenceapplicationformguidance.html>.

Please direct any queries to [licensing@epa.ie](mailto:licensing@epa.ie).

Yours faithfully,

Environmental Licensing Programme
