

## Licence Alteration Request

Alteration Details	
Licence	W0003-03 Ballymount Baling Station
Licensee	South Dublin County Council
Title of Alteration	Request to store waste overnight

### Screening Report

No.	Question	Answer
1	Does the proposed alteration require a new class of activity or process?	No
2	Does the proposed alteration cause a new / additional main emission point?	No
3	Does the proposed alteration increase or change specified emissions <b>significantly</b> ?	No
4	Does the proposed alteration increase <b>significantly</b> the overall total emission from the installation/facility?	No
5	Does the proposed alteration involve development or proposed development that has already been granted planning permission or requires a grant of planning permission and was/is subject to EIA by the Planning Authority or An Bord Pleanála?	No
6	Did the proposed alteration require the preparation of a Natura Impact Statement (NIS) for consideration by any Planning or Public Authority?	No
7	Does the proposed alteration indicate that the EPA should conduct an Appropriate Assessment (on foot of a screening for Appropriate Assessment)?	No
8	Does the proposed change conflict with BAT as set out in the relevant BAT Conclusions? See <a href="#">here</a>	No
9	Does the proposed alteration adversely affect the energy efficiency of the installation/facility?	No
10	Does the proposed alteration adversely affect the environmental risk of the installation/facility <b>significantly</b> ?	No

## Licence Alteration Request

11	Does the proposed alteration cause an increase above the capacity limitations specified in the licence?	No
12	Does the proposed alteration require an extension of operating hours (where controlled by the licence) for an installation/facility where the public is likely to have an interest in such an extension?	No
13	Does the proposed alteration involve the incineration or co-incineration of waste materials displaying hazardous properties that were not previously authorised (as per the WID/IED)?	No
14	Does the proposed alteration introduce materials or techniques which adversely alter the probability, magnitude and duration or complexity of the site transboundary impact?	No
15	Does the proposed alteration constitute a substantial change?	No
16	Does the proposed alteration require a change to a condition or schedule of the Licence?	Yes

### Recommendation

Based on your responses to the forgoing questions the recommended option is for you to submit a 'Request Licence Amendment' for this proposed alteration.

To submit this request to the EPA you should locate it in the 'Request Alteration' area in LMA. Click on 'Proceed' against this saved request, and then click on the 'Request Licence Amendment' button (in STEP 2 of the process). Then you will be required to provide more detailed information about your proposed amendment.

Note: The responses you have provided in this Screening Report will form part of the information record if you decide to proceed with this alteration request.

Recommendation Date: 10/08/2018

**Clerical or Technical Amendment Application Details**

**Proposed Alteration Description**

Condition 5.3.3 requires that all waste accepted into the Baling Centre whether for treatment or transfer, shall be dispatched from the installation on the day of waste acceptance, except where waste is dealt with in accordance with the contingency arrangements required by this licence. In the event of our current outlet ceasing to take material at short notice, we would require the facility to temporarily store the waste.

The current condition 5.4 requires the floor of the building be cleared of all waste at the end of the working day. The operational hours specified in the licence are 6.30 am to 9.30 pm. In order to comply with the current Condition 5.4 waste acceptance typically stops at before 4 pm to ensure that all wastes can be removed from the building before 9.30 pm.

Currently, waste collection vehicles serving the facility that have not completed their collection runs and returned to the site before 4 pm are diverted to the nearby SEHL Materials Recovery Facility at Bally

<b>Priority</b>	1. Routine
<b>Category of Amendment</b>	(b) Facilitating the doing of any thing pursuant to a condition attached to the licence where the doing of that thing may reasonably be regarded as having been contemplated by the terms of the condition or the terms of the licence taken as a whole but which was not expressly provided for in the condition

**Licence Condition Changes**

Condition / Schedule Reference	Current Condition / Schedule Wording	Suggested New Wording
5.3.5	Notwithstanding Condition 1.7, all waste accepted into the Baling Centre, whether for treatment or transfer shall be dispatched from the installation on the day of acceptance, except where the waste is dealt with in accordance with the contingency arrangements required in the licence	Notwithstanding Condition 1.7, all waste accepted into the Baling Centre, whether for treatment or transfer, shall be dispatched from the installation with 48 hours of arrival or 72 hours in the case of a public holiday.
5.4.1	The floor of the Baling Centre shall be washed down and cleared of all wastes at the end of the working day. The floor of the storage bays for recovered wastes shall be washed down and cleaned on each occasion such bays are emptied. The conveyor belt and balers shall be cleared of all waste at the end of the working day.	The floor of the Baling Centre shall be washed and cleared daily. The floor of the temporary waste storage bay shall be washed down weekly.
7.1	All baled waste shall be removed from the facility within forty-eight hours of being baled, unless subject to the prior agreement of the Agency	All waste shall be removed from the facility within 48 hours or 72 hours of a public holiday, unless subject to the prior agreement of the Agency
