APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR A WASTE LICENCE

KILSARAN CONCRETE
 Health intends to apply to the Environmental Protection Agency for a waste licence in respect of a soil and stone waste recovery activity on lands at Halverstown, Kilsaran, Co. Kildar (National Grid Reference 232E 254N).
 The waste licence application provides for approximately 1,200 tonnes of imported natural materials, principally inert soil, stones and/or broken rock, to be backfilled and restored to backfill and restore a disturbed landfillform created by previous extraction of sand and gravel and to improve lands currently in agricultural use.
 (i) Shared use of existing and/or previously approved site and services infrastructure including a site office, staff welfare facilities, weighbridge (with dedicated office), wheelwash, hardstand areas, fuel storage tanks.
 (ii) Provision of a dedicated waste inspection and quarantine facility at an existing covered shed.
 (iii) Separation of any construction and demolition waste (principally concrete, metal, timber, PVC pipes and plastic) inadvertently imported to site prior to removal off-site to authorized waste facilities.
 (iv) Temporary stockpiling of topsoil and subsoil pending its re-use as cover material in the final restoration of the application site.
 (v) Environmental monitoring of noise, dust and groundwater for the duration of the site restoration works and for a short period thereafter.
 The principal activity is Class R5 as per the fourth Schedule of the Waste Management Act 1996, as amended (recycling or reclamation of other inorganic materials, which includes soil cleaning resulting in the recovery of the soil and recycling of inorganic construction materials).
 Other activities include Class R3 (recycling or reclamation of the fourth Schedule of organic substances which not used as solvents) and Class R13 of the fourth Schedule (storage of waste pending any of the operations numbered R12 (excluding temporary storage, pending collection, on the site where the waste is produced).
 An Environmental Impact Statement (now known as an Environmental Impact Assessment Report) will be submitted to the Agency with the Waste Licence Application. The Environmental Impact Statement and further information relating to the application may be furnished to the Agency in the course of its consideration of the Application will, as soon as practicable after receipt by the Agency, be available for inspection or purchase at the headquarters of the Agency.
