Reg. No. W0291-02

Section 87(3) of EPA Act 1992 as amended in respect of licence application from Forge Hill Recycling Unlimited Company for an installation located at Forge Hill Recycling Unlimited Company, Forge Hill Waste Transfer Station, Forge Hill, Cork.

Dear Sir / Madam,

I refer to your application for a licence received by the EPA on 05 November 2018.

The EPA is currently processing a high number of applications for industrial emission licences. We are working to process all applications as quickly as possible with the current resources available. Applications are being processed on a priority basis. Our decisions are made subject to completing all the required environmental assessments and the development of appropriate measures to ensure that licence conditions prevent pollution and ensure that best available techniques are applied.

The timeline to complete an application assessment depends on resources; our technical assessment; such further information as may be required being provided; public submissions and objections.

I am therefore to request your consent, in accordance with Regulation 14(2) of the EPA (Industrial Emissions) (Licensing) Regulations 2013, to extend the appropriate period by which the Agency must issue a proposed determination to 07/09/2019.

I would appreciate your reply, via EDEN, by return.

Yours faithfully,
